COOLIDGE SWEEPS EASTERN STATES

Pontotoc County Democratic Ticket Carries

WALTON ONLY DEMOCRAT TO SUFFER DEFEAT IN COUNTY; PARTIAL RETURNS REVEAL

Pine in Lead in County of Twenty-Eight Out of Total Boxes Tabulated at Midnight Tuesday.

McKEOWN PILES UP LEAD

Other Democratic Nominees Easily Master Election Grind to Win Vote of County People

Election returns from Pontotoc county at midnight indicated that the unusual heavy Democratic majority was rolled up at the election of Tuesday with the exception of J. C. Walton, candidate for the senate. At that hour figures from 28 of the 48 boxes of the county gave Pine a lead of 330, the totals being 2,473 for Pine and 2,143 for Walton. However, these figures included all of the nine boxes in Ada, 8 of which went against Walton. Complete returns from the county will probably give Walton a slight lead. Walton did not maintain the commanding lead in the rural precincts that he had in former elections, although he had carried most of them that came in last night.

The national ticket went over by a heavy plurality, Davis receiving 2,787; Coolidge 1,272 and LaFollette 292, counting the votes for both the Farm-Labor and Socialist electoral ticket for LaFollette. The vote yet to come will increase Davis' lead by several hundred more.

McKEOWN HEAVY RUNNER

In the congressional race Tom D. McKeown ran ahead of the national ticket, receiving 3,003 votes to 1,019 for Wells, his Republican opponent and 171 for Misenheimer, Farmer-Labor candidate. The vote yet to come will increase McKeown's plurality somewhat.

For corporation commissioner, Capsinaw, the Democratic nominee, polled 2,656 and 920 for Quinn, Republican, and 233 for Libbey, Farm Labor candidate.

Time did not permit the counting of the vote for justices of the court of appeals and the supreme court, but they ran only slightly behind Capsinaw.

The Democratic county nominees all won easily, but the race for representative was a trifle closer for a time. The boxes already heard from gave Strickland 3,162 and Beard, his Republican opponent, 1,845. Beard carried five of the nine boxes of Ada, Lula and Owl Creek and was only 11 behind at Allen. Later returns will doubtless increase Strickland's majority.

The sheriff's and county attorney's races attracted more interest than any others, but in both the Democratic nominees won by good majorities. In the first named, W. B. Walker received 2,573 in 25 boxes and C. R. Edmonds received 1,640.

In the latter, J. W. Dean was given 2,151 and E. N. Jones 876. For county superintendent S. G.

Republican Gets Lead Over Widow of Former Leader

CHEVENNE, Wyo., Nov. 5 — With President Calvin Coolidge, Republican candidate for re-election, taking a comfortable lead over John W. Davis, Democratic nominee, and Robert M. LaFollette, Independent standard bearer, in early returns from sections in Wyoming, interest centered here in the race between Mrs. Nellie T. Ross, Democrat and widow of the late Governor Ross, over E. J. Sullivan, Republican, for governor.

Fifty-four precincts out of 892 gave Mrs. Ross 892 and Sullivan 950.

On the face of the same returns, Coolidge had 1281, Davis 353 and LaFollette 544.

PARTIAL RETURNS CLOUD UP RACES

Bayless and Montgomery Having Stiff Fight; Hastings Beaten.

OKLAHOMA CITY, Nov. 5 — For congressman in the first district, 168 precincts out of 475 give Bayless, Democrat, 15,015; Montgomery, Republican, 12,388.

Second district: 110 out of 269 precincts give Hastings, Democrat, 9,229; Reed, Republican, 13,458.

Third district: 221 out of 443 precincts give Carter, Democrat, 19,132; Welch, Republican, 6,694.

Fourth district: 172 out of 404 precincts give McKeown, Democrat, 12,671; Wells, Republican, 7,706.

Fifth district: 189 out of 391 precincts give Swank, Democrat, 14,999; Goldkie, Republican, 9,588.

Sixth district: 148 precincts out of 346 give Thomas, Democrat, 14,115; Gensman, Republican, 8,319.

Seventh district: 128 out of 320 precincts give McClintic, Democrat, 10,138; Mills, Republican, 4,629.

Eighth district: 251 out of 437 precincts give Crowe, Democrat, 15,660; Garber, Republican, 18,325.

For criminal court of appeals: 282 precincts out of 3184 in the state give Edwards, Democrat, 20,210; Kelly, Republican, 7,732.

For corporation commissioner, 695 out of 3184 precincts give Capshaw, Democrat, 48,627; Quinn, Republican, 30,818.

For the supreme court, 511 out of 3184 precincts give: Mason, Democrat, 30,449; Keenan, Republican, 21,355; Lester, Democrat, 26,780; DuBois, Republican, 17,676; Phelps, Democrat, 26,584; Oldfield, Republican, 17,580; Hunt, Democrat, 26,258; Spradling, Republican, 14,563; Clark, Democrat, 26,465; Cooper, Republican, 14,786; Riley, Democrat, 27,944; Cline, Republican, 16,753.

OKLAHOMA CITY, Nov. 5 — After running second, at times more than jumped into the lead in Kentucky late tonight with 2866 precincts out of 3971 in the state reporting. The vote: Coolidge, 291,050; Davis, 290,920; LaFollette, 22,436.

Coolidge Grabs Kentucky

Hopeful

NEW YORK, Nov. 5 — John W. Davis went to bed about midnight at the home of Frank L. Polk, former acting secretary of state, still confident that the election would be thrown into the the house of representatives. Mr. Polk declared:

"Mr. Davis is not at all alarmed by the early returns from the eastern states," Mr. Polk said. "He expected this and believes that the crux of the election is in the west, and that it depends upon the vote LaFollette takes away from Coolidge. He thinks LaFollette will carry six or eight states and this will throw the election into the house of representatives."

Tomorrow he expects to return to his home at Locust Valley for a game of golf."

Hoover Sees Offset

SAN FRANCISCO, Nov. 5 — Secretary of Commerce, Herbert Hoover, in a statement to the Associated Press late tonight, declared that Coolidge had been elected and that he would carry the state of California by over 100,000.

Coolidge Grabs Kentucky

LOUISVILLE, Ky., Nov. 5 — After running second, at times more than jumped into the lead in Kentucky late tonight with 2866 precincts out of 3971 in the state reporting. The vote: Coolidge, 291,050; Davis, 290,920; LaFollette, 22,436.

WEE HOUR RETURNS PUT CAL AT HEAVY ADVANTAGE OVER DAVIS IN EASTERN STATES

Middle West and Trans-Mississippi Invasion Apparent as Returns Boost Lead of President.

LaFOLLETTE LEFT OUT

Davis Boasts of Solid South With Number of Doubtful States Figured as Spoils of Democratic Rally.

2 o'clock this morning President Coolidge was maintaining his advantage in the east and middle west and established leads beyond the Mississippi which, his campaign managers insist, will give him an overwhelming majority in the electoral college, with a total running above 300 votes.

John W. Davis had to his credit not only the democratic states of the south, but was leading also in Oklahoma, Missouri, and Tennessee, all carried by Harding in 1920, the year of the Republican landslide. He also had a slight margin in New Mexico, but had surrendered his lead to Coolidge in Kentucky. Senator LaFollette was leading only in his home state, Wisconsin, although his managers insist that his strength will increase as the returns come in from the rural districts of the west.

Iowa, which LaFollette had hoped to win, has been conceded to Coolidge by LaFollette headquarters at Des Moines, In Minnesota, with only a small proportion of the votes counted, Coolidge was leading the Wisconsin senator by more than 10,000. The president also had a lead of more than 100,000 over Davis and LaFollette in California, with about one-fourth of the state reported.

Even Representative John M. Miller, of Wisconsin, Senator LaFollette's campaign manager, said:

"Early returns indicate a landslide for Coolidge; we still have hopes of carrying several of the western states."

Just before midnight, the New York Tribune, which has been advocating the election of Roosevelt for Governor, conceded the election of Governor Smith by 100,000.

The first turnover in the congressional ballots did not come until the returns were in from more than 140 districts. It was in New Hampshire, where a Republican defeated a democrat.

NEW YORK, Nov. 5 — The Republican managers were declaring at midnight the repetition of the landslide that brought Warren G. Harding to the White House in 1920 on the face of returns received early this morning from eastern and middle west states, but the Democrats are confident. They

recalled the election of 1916 when newspapers had announced the election of Charles Hughes only to find on final returns that the west had turned the trick and overcome expectations.

Returns from congressional sections were coming in slowly in states, only three states had caused senatorial races to change political complexion. Incumbents were defeated in New Hampshire and Pennsylvania.

No definite overturning of political strongholds were in evidence except in Oklahoma where Walton, Democrat candidate, running to maintain the Democratic seat vacated by Senator Robert L. Owen was claimed by W. B. Pine, a Republican.

NEW YORK, Nov. 5.—At midnight, with election returns still coming in slowly from the western states and the deciding electors yet to be heard from, the results of the presidential contention had not come to a close regardless of concessions by parties and newspapers.

The following states are listed through newspaper reports and party concessions.

COOLIDGE-DAWES ELECTORAL VOTES:

States	Number	State	Number
Illinois	29	New Hampshire	1
Iowa	13	New York	45
Connecticut	7	Ohio	24
Kansas	10	Pennsylvania	38
Maine	6	Rhode Island	5
Massachusetts	18	Vermont	4
Nebraska	8	State	Number
TOTAL	211		

DAVIS-BRYAN ELECTORAL VOTES

Alabama	12	Mississippi	10
Arkansas	9	South Carolina	12
Florida	6	North Carolina	10
Georgia	14	Texas	20
Louisiana	10	Virginia	12
TOTAL	114		

LaFollette-Wheeler electoral votes: Wisconsin, 13.

Kentucky with its 13 electors, Missouri with its 18, Tennessee with its 12 and Oklahoma with its 10 electoral votes were showing only partial returns at that hour but with an apparent trend to Davis and Bryan.

The number of electoral votes concurring to a majority and bearing on an election is 266.

None of the candidates would comment on the returns as they showed at midnight. President Coolidge stated that he would rest until tomorrow before making a statement. Senator Robert M. LaFollette at his home in Madison, Wisconsin, made a similar statement. At the John W. Davis headquarters, it was stated that it was not too late to win an election and asked that the election of 1916 when Woodrow Wilson

defeated Charles Hughes with the returns from the western states, which cut down Hughes' early lead from the east, be remembered.

The Coolidge columns continued to mount in the east as returns continued to roll in and the peak of interest in the races for governorship centered in the contest between Governor Al Smith and Theodore Roosevelt. Governor Smith will receive the majority of his votes from New York City while Roosevelt's strength lay in the returns from upstate. Vice-chairman Hill of the Roosevelt campaign, expressed his opinion that Smith would carry the state on the basis of returns shown him conceded that Smith was elected.

The congressional races were slow. Returns that came after midnight failed to lend color to the races.

the state or election returns.

CHARLESTOWN, W. Va., Nov. 5.—President Coolidge maintained his lead with one-third of the total vote of the state in. At midnight when the vote was tabulated, the President's lead stood at 14,773, when 710 of the state's 2191 precincts had reported, while LaFollette's total vote in the same number of precincts was less than Coolidge's plurality.

PHILADELPHIA, Pa., Nov. 5.—Coolidge, carried Pennsylvania in today's election by a large plurality. Returns from more than one-fourth of the precincts in the state showed him leading John W. Davis by more than 257,000. Senator LaFollette was third.

SANTA FE, N. Mex., Nov. 5.—John W. Davis had a slight lead over President Coolidge and the Democratic congressional and gubernatorial tickets were running ahead of the opposition when returns were tabulated at 11:30 here last night. Forty precincts out of 515 give Coolidge 3,259; Davis 3,740; LaFollette 182.

NEW YORK, Nov. 5 at 1:20 a.m.—George Morris, Republican, conceded the election of Governor Smith by a plurality of between 50,000 and 65,000.

NEW YORK, Nov. 5.—With 734 districts out of a total of 7,563 in New York state, the vote is: Coolidge and Dawes, 1,648,202; Davis and Bryan, 872,771. Of the districts yet missing, 290 are in New York City.

LITTLE ROCK, Ark., Nov. 5.—With 259 out of 1967 precincts in Arkansas at midnight reporting John W. Davis, Democratic nominee for president, had received more votes than both Coolidge and LaFollette combined. The vote: Davis, 24,113; Coolidge, 14,471; LaFollette, 5,107.

The same number of precincts gave Senator Joe Robinson, 23,911 and Charles F. Coles, his Republican opponent, received 11,028.

TENNESSEE.—1125 precincts out of 2139 gave Davis 73,066; Coolidge 53,913 and LaFollette 25,249.

OKLAHOMA.—1565 precincts out of 3148 gave Davis 117,203; Coolidge 96,612 and LaFollette 15,034.

KANSAS.—1895 precincts out of 2591 gave Davis 74,622; Coolidge 144,312 and LaFollette 34,394.

OMAHA, Neb., Nov. 5.—Maintaining a lead, when he established when the first returns came from Nebraska, Coolidge forged ahead of John W. Davis and Senator LaFollette in Nebraska in yesterday's election, polling almost as many votes as the combined vote of his two opponents. With 397 of the state's 1941 precincts reported, the vote was: Coolidge, 34,104; Davis, 29,238; LaFollette, 20,167.

LINCOLN, Neb., Nov. 5.—At midnight when he said he was prepared to stay up another hour to get the election returns at the mansion here, Governor C. W. Bryan, Democratic vice presidential nominee, refused to make any statement either on

WORKERS TO COVER CITY FOR DRIVE

Fifty to Assist Red Cross Officials in Annual Roll Call.

Fifty workers will canvass the city of Ada November 11 in the annual Pontotoc county Red Cross Roll Call to secure sufficient funds to support the charitable demands of the city for another year.

The drive, headed by Robert Bradley and Judson Treadwell, will be one of the city-wide scope and will be rushed over in the first day if possible.

Committees of ten members will be named from the Lions and Kiwanis clubs, Chamber of Commerce and Retail Merchants to assist in the drive.

In order to further interest in the drive, a banquet for committees in the drive will be held Thursday evening at 6 o'clock at the Episcopal Parish house with several short luncheon speakers, who will outline the purpose and plans of the drive.

In preparing for the drive, Treadwell stated that the people of Ada should be informed of the expenditures of the money collected locally for Red Cross work, declaring that most of the money is kept here in Ada for use in local cases.

Treadwell stated that Ada is indeed fortunate in having as its Red Cross secretary, Mrs. Orville Sneed, who has no equal for untiring charitable work in the state. Mrs. Sneed is recognized throughout the state as one of the leaders in girls' uplift work and for her interest in wayward children.

LIONS TO WELCOME KENNAMER TO ADA

Committee Appointed to Aid in Annual Red Cross Roll Call.

The Lions Club took action today to welcome to the city Judge Kennamer when he comes to hold federal court here the first Monday in December. A committee, consisting of B. H. Epperson, Orel Bushy and Robt. Wimbish, was appointed to arrange the details. Some of the attorneys present expressed the idea that the lawyers of the city also would tender Judge Kennamer a hearty welcome on his arrival here.

Congressman Tom D. McKeown explained that the court will be held open here the year round, and that sessions will be held from time to time. The district is composed of Okfuskee, Seminole, Coal and Ponca counties.

The Club decided to donate \$50 to the Boy Scout work, according to precedent.

The Club also went on record as favoring the campaign for funds for the United Charities Association and the Red Cross. The committee to assist on this work consists of Byron Sledge, M. O. Matthews, L. A. Ellison, Claude McLean, Robert Bradley, E. C. Wilson, Hugh Biles, Robt. Kerr, C. C. Morris, J. L. Shaw, L. H. Harrell, J. E. Williams, Harry Miller, F. L. Finley and C. Gowing.

Misses Brown and Clark, who are here to coach the play to be given by the American Legion on Nov. 11, favored the club with dancing and piano solo.

Prof. W. K. Harris was introduced as the newest Lion and sufficiently tamed to permit his dwelling among the roaring jungle beasts.

A resolution in reference to the First National bank was introduced and adopted. It follows:

"Resolved, that we, the Lions Club of Ada, express our congratulations to Mr. P. A. Norris and associates in the reorganization of the First National Bank and wish for the institution every success, as it takes its place among the business enterprises of the city and county."

Disturbances

(By the Associated Press)

JACKSON, Tenn., Nov. 4.—G. W. Bartholomew, 70, judge in a polling precinct at Middleburg, Tennessee, and his son, J. L. Bartholomew, 40, are reported to have been killed and Prof. W. W. Rodgers wounded shortly before noon today by Dan Powers, 50, who was defeated in the August primary as Republican candidate for magistrate in Henderson county, according to advice received here from Lexington, county seat of Henderson county.

Rogers was acting in the role of peacemaker when he was wounded, according to the reports received here. Powers is said to have escaped after the shooting.

CHICAGO, Nov. 4.—One man was killed, another probably mortally wounded and a third seriously wounded in a revolver battle outside a polling place where voters were casting their ballots today.

Election officials and police said they did not know whether the shooting had anything to do with the election or not.

LAS VAGAS, New Mexico, Nov. 4.—Polling places west of Las Vegas are being guarded today by soldiers of infantry and cavalry units of the New Mexico national guard. Up to 11 o'clock the institution of martial law here merely constituted protection of the voting places for the purpose of securing a quiet election, said Adjutant General John W. Skipwith today.

Tribune Concedes Defeat

NEW YORK, Nov. 5.—The New York Tribune, which has supported the candidacy of Theodore Roosevelt, conceded the election to Roosevelt's opponent, Al Smith by a vote of 100,000 at 11 o'clock tonight.

No. 2

In the first congressional district, Waynes Bayless, Democrat, and S. J. Montgomery, Republican, were running neck and neck, and in the eighth district Milton Garber, Republican, was being hard pressed by V. P. Crowe, his Democratic opponent.

The six Democratic candidates for the supreme court and the Democratic candidates for the criminal court of appeals and for corporation commissioners were maintaining the lead established by early returns.

OKLAHOMA CITY, Nov. 5.—Returns after midnight indicate that Congressman W. W. Hastings, Democrat of the second district, is being defeated by P. E. Reed, his Republican opponent. At 11 o'clock, Reed was leading Hastings by more than 4,200 votes. One hundred and ten precincts out of 269 in the district give Reed 13,458, and Hastings 9,299.

ballot, the withdrawal coming too late. It has been marked out.

Twenty-two members of the state senate of the legislature and a full delegation—167—in the house will be elected today.

Election officials predict a vote of 600,000, a record for the state.

Pola Negri Here.

"Lily of the Dust," the Paramount picture which opened a two days ago at the McSwain theatre yesterday, is a production bound to satisfy the most finicky picture fan. Pola Negri is the star. Every time we come to the conclusion that she has just about reached the heights of characterization she comes along in a new picture to surprise us with something new.

"Lily of the Dust" was adapted by Paul Bern from a novel by Hermann Sudermann and the play by Edward Sheldon. Pola, has the role of Lily, a poor but very beautiful girl, whose fascination for men is a curse to her. In love with one man, she is forced by circumstances to marry another, only to learn that marriage without love is most unhappy. Men are attracted to her, and she finds herself being pushed along the easiest way that eventually leads to destruction. Fate takes its toll upon her, and in the end she finds happiness.

As in her previous starring vehicle, "Men" Buchowski gives ample proof of the fact that he can get the elemental fire out of Pola for which she is famous. Noah Beery, Ben Lyon, Raymond Griffith are all deserving of high praise for their respective portrayals. The rest of the supporting cast is more than acceptable.

"Lily of the Dust," is well worth a visit to the McSwain theatre.

Monks to Observe Anniversary

OXFORD, Nov. 4.—The 700th anniversary of the arrival of the Franciscan Friars in Oxford will be observed by Monks here. A pontifical high mass will be celebrated at the Church of St. Mary's, on the site of the ancient friary.

Because of the close connection between the Friars and the University and City of Oxford in medieval days, the Lord Mayor and the Vice-Chancellor will take part in the celebrations.

"Lily of the Dust," the Paramount picture which opened a two days ago at the McSwain theatre yesterday, is a production bound to satisfy the most finicky picture fan. Pola Negri is the star. VOTELESS WASHINGTON IS RESTING FOR RETURNS

(By the Associated Press)

WASHINGTON, Nov. 4.—The usual calm of voteless Washington prevailed at the White House today as the Nation goes to the polls.

President and Mrs. Coolidge made out their votes on absentee voting ballots and mailed them to Northhampton, Massachusetts, their home and had nothing left today except the usual routine of office and await the first returns.

Most of the cabinet officers were out of the city voting in their home towns. The others had engagements at the White House during the day along with a few other callers.

Tonight, in the early part of the evening at least, Mr. and Mrs. Coolidge with Mr. and Mrs. Frank W. Stearns of Boston, their guests, will receive election returns sent to the executive offices over special wires. It is expected that a radio set in the white house also will be used to follow the count.

A Remarkable Yodler.

Mr. Norris Nelson "Swiss Yodler" with J. A. Coburns Minstrels this season at the McSwain theatre on Friday, Nov. 7 is one of the best in his line. Possessing a remarkably pleasing tenor voice, and among others introducing an entirely new yodel of his own composition his tones are absolutely true and of rare sweetness making this one of the strong features of the first part ensemble. Manager Coburn has made every effort to maintain the reputation of the company as a fine singing show as well as a top notch performance in the comedy line. Coburns Minstrels is one of the oldest in consecutive seasons enroute in America and justly merits its popularity and success.

The American breakfast of cereals and fruit is becoming popular in London.

The New York and New Orleans cotton exchanges observed holiday today on account of the election, hence there was no market to report in today's paper. Only a few bales were brought in today as election absorbed the interest in the rural districts.

Capt. S. H. Hargis states that he will resign his position as custodian of the Confederate memorial hall at the state capitol. His eyesight has failed so much recently that he does not feel that he can handle his work as he thinks it should be. He plans to undergo treatment at the hands of a specialist as soon as he leaves office.

Daughters of Confederacy Will Convene at Savannah

(By the Associated Press)

SAVANNAH, Ga., Nov. 4.—The thirty-first annual convention of the United Daughters of the Confederacy will convene here Wednesday, November 19. Preliminary exercises will be held Tuesday evening, November 18, in the municipal auditorium, while Monday, November 17, will be given over to meetings of committees and a conference of the division presidents in charge of the president general will take place.

There are 100,000 members of the organization, while 1,125 chapters in 37 states and one in Paris. Last year the United Daughters of the Confederacy contributed, to scholarships and otherwise, \$304,000 toward educating worthy and needy young people.

Mrs. Frank W. Harrold, of Americus, Ga., a sister of Governor Walker of Georgia, is president-general of the organization.

Fatalities from alcoholism in Philadelphia decreased more than 85 per cent in the first six weeks of 1924.

THREE CANDIDATES SEEK STATE VOTES

Presidential Candidate Managers in Oklahoma Predict Victory.

(By the Associated Press)

OKLAHOMA CITY, Nov. 4—Oklahoma headquarters of the three major candidates for the presidency have voiced their confidence in victory at the polls today. Only one spokesman, J. Luther Langston, state manager of the LaFollette candidacy, amplified his statement by indulging in numerical possibilities.

While both the democratic and republican headquarters declared their tickets, national and state would win, Langston claimed LaFollette would carry the state, polling more than 200,000 votes.

W. B. Hines, publicity director for the democratic headquarters, declared "the state ticket from top to bottom will be elected, with J. C. Walton, senatorial candidate and Davis and Bryan running about even." Hines said that the complexity of the issues made numerical claims ridiculous, but that "it was certain that the nominally democratic districts will pile up enough of a vote to insure victory."

Ed Dyche, manager of W. B. Pine's senatorial campaign's speaking for the republican headquarters said:

"The republican state ticket will win today, with W. B. Pine leading. His margin over J. C. Walton will be conformable. Coolidge and Dawes will carry the state by a substantial plurality over Davis and Bryan and LaFollette and Wheeler."

A statement issued from democratic headquarters said: "The democratic headquarters has no desire to make any unusual prediction regarding the result of the election. Normally Oklahoma is a democratic state and the reports given by the various districts and county workers to State Chairman R. L. Davison and his associates of the democratic committee, indicate that the state will at least give its usual democratic majority."

"These reports indicate that the state ticket will be successful in at least six of the eight congressional districts, and we have good reasons for believing success may be given in each of the districts. The wild rumor to the effect that one or more of the state candidates is in danger of defeat are not warranted by reliable reports. At this time there is no indication of the slightest variance between the presidential candidate, the senatorial aspirant and the lowest color bearer on the ticket."

LEAGUE SECRETARY TO BE ASKED AT CONFERENCE

MCALISTER, Nov. 4.—At the 79th annual session of the East Oklahoma conference of the Methodist Episcopal church, south, which convenes here November 6, the conference Epworth League board will be asked to ratify a recent action of the Epworth League board of the church, providing for the employment and direction of regional field secretaries of the league throughout the bounds of the church, it was announced by Bishop John M. Moore, who will preside over the conference.

The office of regional secretary is recommended due to the rapid growth of the Epworth league organization and increasing participation of the league in the work of the Methodist church.

The regional secretary will be selected following the annual conference meetings of the church and probably will enter upon his duties following the Epworth League president's meeting at Dallas in February, 1925.

The conference Epworth league board will foster the regional field secretary for the area included in the East Oklahoma conference. The field secretaries will work under the direction of the central office which is located at Nashville, Tenn., under Dr. F. S. Parker as general secretary.

The Epworth league recently pledged itself to raise \$100,000 for missionary extension during 1924.

Democrats Win Out in Three National Races in Oklahoma

(By the Associated Press)

OKLAHOMA CITY, Okla., Nov. 4.—In the four national elections in which Oklahoma has participated, the democratic ticket has won three times and the Republicans once. In 1920 Oklahoma went with the national landslide and gave Warren Harding 242,464 votes and James M. Cox 215,808. Woodrow Wilson in 1916 piled up the greatest plurality of a presidential candidate, leading Charles Evans Hughes by more than 50,000 votes. In 1912 Wilson led Taft by more than 30,000 votes.

In 1912, the year Theodore Roosevelt bolted the Republican ticket and ran as Progressive, Oklahoma did not give him a vote. Owing to the state law which at that time included but three tickets eligible for the ballot, Roosevelt's name was barred. Oklahoma was the only state in the union which recorded no Roosevelt vote. Following are the national election results in Oklahoma: 1908, Bryan 122,363, Taft, 110,474, Debs 217,200. 1912, Wilson 119,156, Taft, 90,786, Roosevelt, none, Debs, 41,674. 1916, Wilson, 148,113, Hughes 97,233, Benson 45,637. 1920, Harding 243,464, Cox 215,808, Debs 25,679.

COLLEGE THRILLS PROVE SUCCESS FOR ADA HI

College Thrills, a new comedy drama by Jas. L. German, was presented by the Public Speaking club of Ada high school at the Convention Hall last evening. Those who were fortunate enough to see this play are very generous in their praise of both director and players.

This play, which was suggested by the recent Franks murder case, was a picture of city life. Lewis Huffstein, a wealthy ex-college boy believes in science and philosophy and is somewhat of a skeptic. Richard, his closest pal is however a lover of thrills. Being unable to find thrills enough in Chicago, he suggests an airplane trip down the Hudson. They take Willie Randolph, a boy of thirteen with them, "because he wants to go," and trouble begins. Mrs. Randolph and Martha are worried over Willie's disappearance after "The Tribune" reports foul play in the park. Judge Long investigates and suspects Lewis and Richard. Mr. Huffstein is very enraged. McFlinn "got 'em at the airship landin' begorrah!" Lewis acts the mad man to save his neck" after much explanation the boys are released and forgiven. Then occurs a serious case of "bi-plane" love.

Edna Gray playing the part of Mrs. Randolph and Dixie Lee Russell playing the part of her daughter were the outstanding stars of the performance. Raymond Webb playing the part of Lewis Huffstein made a tremendous hit with his peculiar brogue and quaint personality. Martin Landers as Mike McFlinn kept the audience laughing throughout the play. Carl Duncan, Cecil Myers, Lucile Webster, and Irene Holmes had strong parts which they played excellently.

Ada High school is to be commended that it has such a capable director and such an excellent group of players.

DAN CUPID ON JOB LAST MONTH

Dan Cupid made a sensational invasion of Pontotoc county last month and during his stay here, 48 knots were tied with divergent ceremonies.

This record is declared to be Dan's most sensational stand in Pontotoc county this year.

Keepers of the bow and arrow believe that the era of prosperity and the ability of more prosperous males to take on more expensive items is the reason for the noticeable increase in the wedlock family.

Dan marked up a three-to-one margin on his rival, the divorce lawyer, this month, 15 petitions for marital severance being filed during the month.

Public garages in Germany have to have a separate compartment for each car.

A PARTNER OF SUNLIGHT

Cod-liver oil has aptly been called the partner of sunlight. Both out of Nature's storehouse of energy are of supreme importance to a child with rickets.

SCOTT'S EMULSION

and sunlight have been used for decades to give strength to weak-bones. A little of Scott's Emulsion with each feeding does wonders for a malnourished child or adult.

Keep your boy or girl out in the sunlight and give them Scott's Emulsion everyday—regularly!

BIBLE THOUGHT FOR TODAY

THE WORK OF RIGHTEOUSNESS shall be peace; and the effect of righteousness, quietness and assurance for ever. And my people shall dwell in a peaceable habitation, and in sure dwellings, and in quiet resting places.—Isaiah 32:17, 18.

VIOLENT DEATHS ON INCREASE.

Violent deaths are becoming so numerous that news items concerning them are considered commonplace. Those we read of today are forgotten tomorrow, for tomorrow presents us with a new list, and so it goes on from day to day and from week to week. Only recently one of our prominent Texas dailies displayed on page one announcements of thirty-three deaths and seventy-eight injuries, all of a violent nature. In this list was chronicled a train wreck and a moving picture panic, the result of a false alarm of fire.

Sometimes a disaster taking a toll of a large number of lives startles us, but we are almost without emotion when it comes to reading the daily list of killed and crippled, the result of carelessness and disregard for the lives of others. A large number of deaths result from the demand for thrills at public expositions. Daredevil stunts with airplanes; acrobatic acts on the wings; parachute jumps; record breaking efforts on race tracks, all contribute to the daily list of dead and injured. The automobile, however, when used for pleasure or for business, is running ahead of all other violent death agencies and efforts to reduce the number of victims prove futile. Death notices, the sight of wrecked cars or the constant sounding of the sirens of the ambulances make no impression on many automobile drivers. They go tearing down the street or the public highways at dangerous speed, laughing at narrow escapes—taking chances so often that they become immune to any fear for their own safety or for that of others.

Most drivers who run down pedestrians or other automobiles stoutly maintain that the accident was unavoidable, or swear that it was the other fellow's fault. There are unavoidable accidents, but by far a greater number would never have happened had not the driver been in such a hurry. Too many drivers, going nowhere in particular, crowd the speed limit and often pass it. The sight of a car ahead of them is like a red flag waved in the face of a bull. They step on the gas and try to pass everything in sight without regard to their own safety or that of others. Such drivers are a public nuisance and a menace and should be prohibited from putting a hand on an automobile steering wheel. The only way to rid the roads and streets of them is to license drivers and take the license away from those who break the laws or in other ways show themselves unfit to assume the responsibilities of driving a motor car of any description.—Farm and Ranch.

THE AUTO HOBO.

Recently we've been noticing in exchanges occasional items that lead us to believe this country is in for a new type of hobo. We have not seen so many tramps in recent years as once migrated through these parts, and recent newspaper comment leads us to believe that they have been transformed into a new and more modern class of rovers, that they now travel in pulman car style instead of on the bumpers.

One editor points out that the auto hobo has hit this section on several occasions recently, and that the country is about to be infested with them. It is easy for a common, ordinary tramp to secure a discarded flivver that can easily be made to run. He can get from one town to another with ease, and instead of "bumming" a bed in a haymow he can sleep in his car alongside the road. He can easily pick up a chicken here and roasting ears there and be miles away before the owner misses them. He can make his campfire where he pleases and he gets his gasoline money by begging it, just as he once got enough to keep himself supplied with booze. He is not in danger of arrest for violating the speed limit, because he prefers to take it leisurely, camping wherever night overtakes him and sponging on tender-hearted house-wives who are good enough to listen to his new line of hardluck.

So far we haven't noticed the appearance of the auto hobo in Altus. But he must be getting numerous, from all newspaper accounts, so we may rest assured that he will be here in plenty of time to make himself a nuisance.—Altus Times-Democrat.

The killing of Bill Tilghman removes the last of a number of early day peace officers who waged war on the desperadoes who infested the two territories. Tilghman and his kind were all that kept the territories from anarchy. More than one officer gave his life to the cause of law and order and Tilghman himself had many close calls. It is the irony of fate that having seen the country pass through all the changes that led up to the establishment of law and order he should fall as he did. Oklahoma owes him a debt of gratitude for the work he did for his efforts were all for law and order.

By the time this paper is in the hands of its readers the election will be settled for four years. Nothing but the counting, the shouting and a week or two devoted to explanations of how it all came about and what might have been or could have been if—

He'll Have to Wait Till Nov. 4 for the Answer

TULSA UNIVERSITY TO BOOST CAGING SQUAD

The Forum of the Press

TULSA, Nov. 4.—With 20 men in training from which to pick a basketball team, Coach H. M. Achers of the University of Tulsa is optimistic about his aggregation he expects to enter in the Oklahoma state conference race this winter.

This year's team will be recruited mostly from the ranks of the freshmen class, Coach Achers said. Two of the last year's team are on the squad and there are several substitutes and members of the 1921 and 1922 squads who are expected to find places this season.

Gray, captain and forward, Murphy, center, who played in the first team last year, will be the backbone of the five, according to the coach. Forwards will be selected from a group of preparatory and high school stars. "Brownie" Leibert of Tulsa, high scorer on the Tulsa church league last year, Blanch, high score in the Southeastern high school conference and Brownfield, forward and center of the 1922 squad are counted upon as valuable men.

Possible guards are: Rodgers, Herndon, substitute guard last year, Hamilton, substitute guard last year, Perry, a guard from the 1921 squad, and Patton, star guard of the Wentworth Military academy, who is in Tulsa university for his first year. Olson, six feet, four inches tall, now center on the football team may win the same position in the basketball team, Achers believes.

The majority of the squad will be new to followers of the team, Coach Achers said, "but the individuals are showing up well in practice and there is every indication that we will have a good team this winter."

WALTON VICTORY WOULD GIVE U. S. KLAN FIGHT

OKLAHOMA CITY, Okla., Nov. 4.—Victory at today's election will give John Callaway Walton, Democratic candidate, an opportunity to carry his war on the Ku Klux Klan into the United States senate.

Outlining what policies he would foster as a member of the senate, Walton has indicated he would prepare and introduce at the earliest opportunity a national anti-klan bill designed to "unmask" the invisible empire and "make public its membership and policies."

W. B. Pine, Republican, has no pet policies to bring before the congress, should the voters of Oklahoma send him to occupy the seat in the senate which will be vacated by Senator Robert L. Owen. He has declared he would "get acquainted first" and then follow the dictates of his conscience and the consul of the best legislative minds, together with the advice of his people in Oklahoma. Remedial legislation for farmers is needed, Pine said, declaring he intended giving that some consideration.

Walton, also, favors farm legislation and will, if elected, advocate co-operative marketing organizations and an extension of agricultural markets, he has indicated. He will ally himself with the group favoring the repeal of the Esch-Cum ins art, he has declared.

Both candidates stand behind the national platforms, they have said.

Oil News

Thompson & Black, section 2-2-5, are shut down at 890 feet, awaiting the arrival of the 6-inch casing.

The Mecca well in section 7-2-8 is drilling around 1800 feet, carrying the 5-inch casing.

Galloway and others are shut down at 1158 in section 15-5-6 south of Ada.

Jack Lloyd has set the 5-inch casing on a lime shell at 3300 feet in section 6-3-7. Above the lime shell was found 40 feet of blue shale.

The American Oil and Refining Company is drilling around 1080 feet in section 3-4-6.

The same company is drilling below 1425 feet in section 16-4-6.

The Pilgrim Petroleum Company is casing at 1640 in section 27-4-6.

The Texas Pacific Oil Company is drilling at 670 feet in section 31-4-6.

C. J. Wrightsman has a showing of oil at 2550 feet, in section 24-4-4. The 5-inch casing is now being run. This well encountered 25 feet of

green shale at 2525, under which was found a sand showing oil.

Brinson and Doyle in section 32-5-5 are drilling at 513 feet and carrying the 12 1-2 inch casing.

Floyd O. Howarth is drilling at 2800 feet in section 19-5-7, north of Francis.

The Goldline well in section 13-2-3 is shut down at 530 feet.

The exact amount of gas in the Howarth well in section 14-4-7 has not been determined, and cannot be until the casing is set, according to oil scouts keeping up with the matter. The production is believed to be between 3,000,000 and 10,000,000 cubic feet a day.

Los Angeles Pneumonia Plague, Campaign Launched to End

LOS ANGELES, Nov. 4.—An organized campaign to block the further spread of the pneumonic plague in Los Angeles county was well under way today backed by federal, state, county and city officers.

With the total death list since the outbreak of the epidemic in the Mexican quarter on October 19 increased to 25 by four deaths yesterday, their efforts to bring under rigid quarantine every person known to have come in contact with sufferers.

Sunshine and Fresh Air Prescribed for Bad Girls

(By the Associated Press)

LONDON, Nov. 4.—The English reformers' idea of making bad girls better is to give them trips to the seaside. Accordingly last year several of the detention institutions for young girls took parties of inmates to various seaside resorts, where they were given a two weeks' vacation with only the supervision of two matrons to each party of 25 girls.

Last year's outing proved so successful that nearly all similar in-

situations this year took up the idea and allowed their bad behaved girls to have a vacation. The expenses for the trip, above what it would have cost to feed and provide for the girls at the institution, were donated by persons interested in progressive and humanizing methods in the correctional institutions of the country.

Widow of Harding Shows Improvement After Long Illness

L. S. CHILCUTT, E. C.

MARION, O., Nov. 4.—Mrs. Florence Kling Harding, widow of President Harding, who has been seriously ill for the last two weeks, was better today. Dr. Carl W. Sawyer, her physician, said in a statement issued this morning, Mrs. Harding had a fairly good night's rest and ate a hearty breakfast. Dr. Sawyer said. His statement follows:

"The condition of Mrs. Warren G. Harding, widow of President Harding, was somewhat better this morning. She ate a hearty breakfast and had a fairly good night's rest. She was restless until about 1 a. m. and then went to sleep and had from three to five hours of sleep."

Engagement rings are placed on the third finger of the left hand because it was once believed that a nerve or artery passed directly from this finger to the heart.

SUNDAY SCHOOL ROLLS REGISTER SCHOOL DROP

Despite the ideal weather conditions last Sunday, Sunday schools of the city registered a decrease of public school students in their classes, according to a compiled census made public by the city superintendent's office.

The Sunday of October 26 was the banner month for attendance of Sunday schools by public school pupils, the reports show. The decrease of last Sunday's attendance was from 1158 of the Sunday previous to 1121.

Forty public school teachers attended Sunday school last Sunday.

TULSA CHANGES TELEPHONE SYSTEM OVER NIGHT

TULSA, Nov. 4.—What is said to be the largest "cut over" of telephones in industrial history from the "number please" system to the "dial, or automatic method, took place at midnight, Nov. 1 here. The change effected 23,500 telephone lines.

The Southwestern Bell company has been working on the project of installing automatic telephones in Tulsa for more than a year. The entire telephone system was changed over night.

Though the operating force of the telephone company will be reduced approximately one-half, no regular employees will be released, company officials said. All operators who were released when the automatic system went into operation, were employed on a temporary basis.

ALLEGED FORGER SENT TO GRANITE ON CHARGE

Bob Ingram, alleged financial Ponzi who is charged with passing a half dozen forged checks on Ada merchants about a month ago, is serving time at Granite as a result of a sentence on his plea of guilty for the same offense at Pauls Valley, according to announcements of the sheriff's office here.

Pontotoc county officers have filed forgery charges against Ingram to be acted on at the completion of his two years sentence at Granite.

Ingram is alleged to have confessed to passing forged checks in Ada and Lawton when he was arrested at Pauls Valley.

Ingram is alleged to have forged checks on the name of R. C. White for salary on dairy and farm work and to have endorsed the checks with the name of Earl Johnson.

Ingram made a specialty of passing the checks on hardware concerns here.

Raincoats Find Ready Market in Seathwaite

(By the Associated Press)

LONDON, Nov. 4.—Seathwaite, in Borrowdale, has been picked out as the wettest place in wet England. The meteorological department has published a table of the average annual rainfall for the last 60 years, the prize falling to Seathwaite, which has recorded an average precipitation of 129.48 inches.

Seathwaite's actions in the matter of weather have been eccentric, even for the British Isles, and during the last half century this place has recorded an average of 4.06 inches of rain in June, but in August there has been an average of 8 inches.

London can claim to be one of the arid spots of England, with only 23.5 inches as an annual average.

OKLAHOMA CITY, Nov. 4.—Each of the seven days of Fathers and Sons week, Nov. 9 to 16, has been designated for special observance, according to J. C. Watson, state secretary of the Y. M. C. A., and promotional director of the Oklahoma "father and son" committee. Churches at their services and civic and fraternal organizations at their meetings will emphasize, during the week, the particular phase of that day. The days are designated:

Sunday, Nov. 9, Armistice; Monday, Nov. 10, Home Day; Tuesday, Nov. 11, Citizenship Day; Wednesday, Nov. 12, Church Day; Thursday, Nov. 13, Find Yourself Day; Friday, Nov. 14, Banquet Day; Saturday, Nov. 15, Recreation Day; Sunday, Nov. 16, Father and Son Day.

Reports from various sources indicate picnic ants have stored away food for about a million years.

Coal mining in England exacts a toll of more than five lives every working day, it has been estimated.

DURANT—(Special) — Sylvester Cordell of near Colbert is in the Durant Hospital suffering from the loss of two fingers, sustained while roping a steer at his home yesterday afternoon. Riding a horse young Cordell threw the lariat to rope a steer, missed, the rope going over the steer's back. Thinking he had missed, he started riding off, coiling up his rope. However, he had missed another steer by the foot over the back of the first one, which started in the opposite direc-

tion, and tightening the rope, ran it through the young man's hand so fast that it burned off two fingers to the bone.

TEXAS TO BOAST FIRST WOMAN IN GOVERNOR CHAIR

Ma Ferguson Wins Over Republican Opponent in Texas Vote

PRECEDENT IN NATION

Often Stressed Fact That She Was Wife of Impeached Governor

(By the Associated Press)

DALLAS, Nov. 5.—The election of Mrs. M. A. Ferguson, Democrat, as governor of Texas announced by the Texas election bureau, and indicated by returns tabulated by the Western Union Telegraph Co., was disputed today by Dr. George C. Butte, the Republican candidate, and his manager Col. W. E. Talbot. They declared that many Texas ballots were not counted. Texas newspapers accepted the election figures, however.

DALLAS, Nov. 5.—For the first time in the history of the country, Texas elected a woman, Mrs. Miriam A. Ferguson, governor yesterday. The distinction of having a woman to fill the executive office may be shared with Wyoming, as Mrs. Nellie Ross was a candidate for governor.

Both are Democrats and their husbands have both been governors of their respective states.

Mrs. Ferguson generally was called "Ma" by reason of her initials. Her opponent was Dr. George Butte, Republican.

Mrs. Miriam Amanda Ferguson became the Democratic candidate for governor of Texas because she said her husband, who was impeached while in the gubernatorial chair, had been wronged, and that a shadow thereby had been cast upon her name and that of their children. If elected she promised to give the state, with the advice and council of her husband and friends, an "efficient administration."

Many opponents in her own party charged that if elected, James E. Ferguson would in reality be the governor of Texas, which they said would defeat the will of the legislature that in 1917, during his second term, impeached him for alleged "misapplication of public funds." The state senate at that time inserted a provision disqualifying him from holding any state office.

The anti-Ferguson group went to court for a ruling on the constitutionality of a woman holding the governor's chair which they argued was in contravention of the state's law. The trial court upheld counsel for Mrs. Ferguson. The decision was taken to the state supreme court.

Mrs. Ferguson ran second to Judge Felix M. Robertson, a Democrat, one of seven other candidates in the first primary. The Texas law provides that where a candidate does not receive a majority of all votes cast, the two highest shall participate in a run-off primary. Mrs. Ferguson said that it "scared" her to make a speech so she made no campaign addresses during her race. She appeared on the platform with her husband several times and introduced him as "the speaker of my house."

Stressed Husband's Impeachment

She frequently stressed, the fact that she was the wife of the impeached governor, a fact which denied him the privilege of placing his name on a Democratic ticket for any state office.

Mrs. Ferguson received 146,777 votes in the first primary and Judge Robertson got 192,692. In the final, Mrs. Ferguson led Robertson by approximately 100,000 votes.

The Ku Klux Klan became a bitter issue. The Ferguson denounced it and devoted many of their important speeches against it. Mrs. Ferguson is a member of the Episcopal church and her husband frequently attends the Christian church.

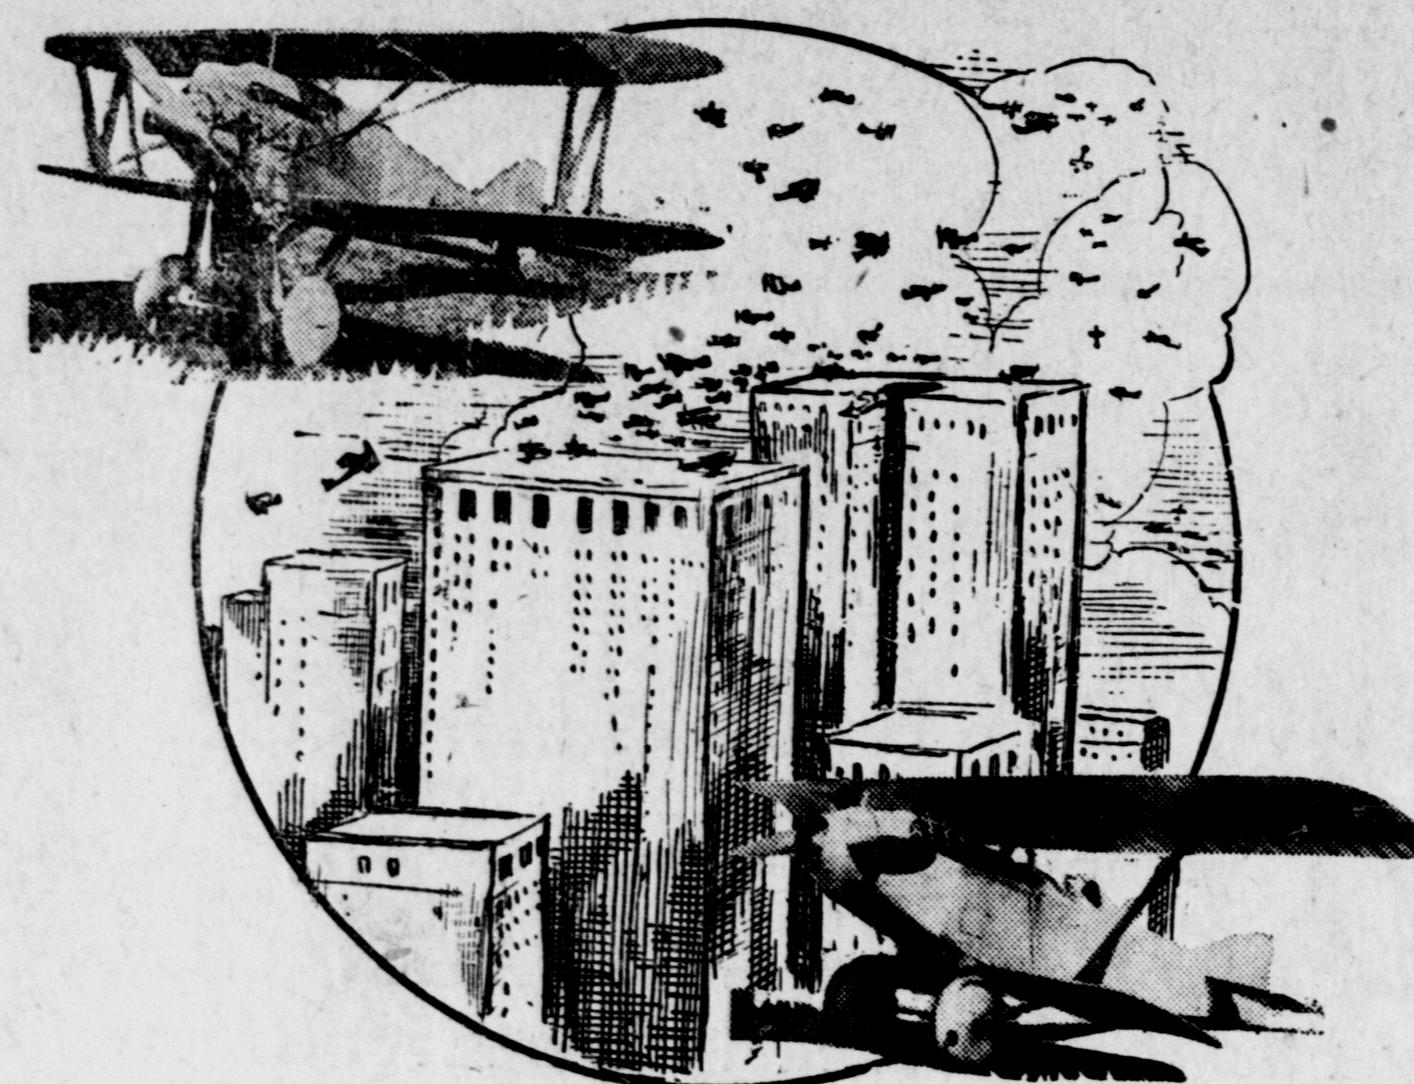

This Democratic woman's opponent in the election was Dr. George C. Butte, a Republican, who claimed that he would receive many of the Democratic votes lost because of the dissension over the Ferguson issue. The normal Republican vote in Texas is about 100,000 compared with more than 500,000 Democratic.

Mrs. Ferguson is a native of Texas, born and reared on a farm in Bell County, which she now owns. Her daily routine before she was nominated was not much unlike that of the wife of any merchant or banker in a town the size of Temple, which has about 15,000 inhabitants, except that she never aspired to be a social leader. She believed her nomination was a vindication of her husband's name and record, as well as a victory for the issues she championed.

In her announcement for the of she did not understand the intricacies of politics or legislation, and record.

Skies Soon to Blacken With \$500 Air Flivvers

Safe, practical, cheap "flivver" airplanes will be placed on the American market in 1925 by companies organized to manufacture them on a mammoth scale. The prices will range from \$500 to \$1500. Above are shown two types of small planes already developed.

By W. Y. FERROL
(Central Press Correspondent)

DETROIT, Nov. 5.—Planes are now being made to place "air flivvers" costing from \$500 to \$1500 on the American market in great numbers in 1925.

Not only that, but airplane motors probably will be sold separately, so that planes can be built at home. It is estimated that a "air flivver" may be shared with Wyoming, as Mrs. Nellie Ross was a candidate for governor.

Both are Democrats and their husbands have both been governors of their respective states.

Mrs. Ferguson generally was called "Ma" by reason of her initials. Her opponent was Dr. George Butte, Republican.

CARNEGIE FUND AGAIN AWARDS MEDALS OF RECOGNITION FOR ACTS OF ALOR DURING YEAR

PITTSBURGH, Nov. 4.—The Carnegie Hero Fund Commission at its fall meeting here Friday, recognized 48 acts of heroism by awarding three silver and 45 bronze medals, pensions and cash appropriations for educational and other worthy purposes. The pensions were awarded the dependents of 13 of the heroes who lost their lives.

The heroes who made the supreme sacrifice were:

J. Franklin Elson, 521 South Depot Street, Brazil, Ind., clay miner, killed while assisting in an attempt to save an entombed miner at Brazil, December 3, 1923; bronze medal to widow and death benefits of \$45 a month with \$5 additional for each of seven children.

Edward K. Kaboun, 3033 Lowe Avenue, Chicago, Ill., died attempting to rescue a girl from drowning at McHenry, Ill., June 23, 1923; bronze medal to his mother.

John P. Schlessman, 336 Besserman Street, Steelton, Pa., railroad crossing watchman, met death while trying to rescue a child from the path of a train at Steelton, April 8, 1924; bronze medal to his widow and benefits of \$50 a month with \$5 additional for a daughter.

George A. Bradley, 127 Broad Street, Plainview, Conn., laborer, drowned when he tried to rescue a girl from drowning at Forestville, Conn., January 31, 1924; bronze medal to widow with benefits of \$60 a month and \$5 a month additional for each of two children.

Harry D. Bradley, son of George was drowned when he went to his father's aid. The award in this case was a bronze medal to the mother.

James P. Smith, 8 Stampers Lane, Philadelphia, Pa., a brakeman, was injured fatally when he attempted to save two men from the path of a train at Philadelphia, Feb. 16, 1924; bronze medal to widow with benefits of \$50 a month and \$5 a month additional for each of five children.

Herman Santow, 10 Cedar Street, Wilmington, Del., killed when he tried to save a boy from being electrocuted at Wilmington, June 25, 1924; bronze medal to widow with benefits of \$45 a month and \$5 additional for each of four children.

Timothy G. McGillicuddy, 19 Meadow Street, Willimantic, Conn., drowned when he tried to save a man from Town Pond at Mansfield Center, Conn., January 20, 1924; bronze medal to widow with benefits of \$70 a month and \$5 a month additional for each of two children.

Andrew Ozminkowski, 5342 Wilson Avenue, Chicago, Ill., injured fatally when he went to the aid of a man who was entangled in live wires at Chicago, Oct. 27, 1923; bronze medal to widow with benefits of \$60 a month and \$5 a month additional for each of four children.

Thomas Edward Owings, 1705 West Thirteenth Avenue, Pine Bluff, Ark., a carpenter, died attempting to save a girl from drowning at Prattsville, Ark., Sept. 5, 1921; bronze medal to widow with \$60 a month and \$5 additional for each of four children.

Pinkney C. Chochran, Epworth, Ga., died attempting to rescue a girl from drowning at McCaysville, Ga., July 14, 1923; silver medal to his mother.

John T. Dunn, Jr., 606 East Eighty-third street, New York N. Y., died when he went to the aid of a drowning woman in the East River, July 12, 1923; silver medal to his father.

Ottis R. Whitehead, Ramsur, N. C., died attempting to save a fellow workman from drowning at Ramsur May 31, 1922; silver medal to his father.

Of the other heroic deeds recognized five of the bronze medals went to women. They were:

Dorothy Dean Wagner, 540 South Cedar Street, Sturgeon Bay, Wis., a school girl, rescued two school mates from drowning at Sturgeon Bay, August 5, 1922.

Margaret Brennecke, 123 South Lincoln Avenue, Aurora, Ill., a student, assisted in an attempt to save two students from drowning at Madison, Wis., April 24, 1921.

Mrs. Mae T. Crowell, 449 West 206th street, New York City, a housewife, rescued a boy from drowning in the Hudson river, July 8, 1922.

Kathryn E. Richardson, 339 Jennings street, New York City, a school teacher, rescued one of her pupils from drowning in the Bronx river, Feb. 6, 1924.

Viola Bryson, 814 East Ninth street, Vinton, Iowa, a student saved a school boy from drowning at Vinton, June 25, 1921.

Five other persons who assisted Miss Brennecke in the attempt to save two students at Madison, Wis., received bronze medals. They were: Edmund H. Haugen, Brookings, S. D., a student; James D. Studley, 3229 Angeline Street, Seattle, Wash., a forest products engineer; Howell K. Smith, of the Larch Products Co., Eureka, Mont., a photographer; Sidney J. Bentley, 64 Washington Avenue, North Platte, Neb., a salesman, and Everett F. Patten, 115 South Main Street, Oxford, Ohio, a student.

Seven persons who participated in the attempt to save a clay mine from a cave-in at Brazil, Ind., received bronze medals. In addition to Elson, who was killed, they were: Reuben A. Brown, 710 North Warren St., Brazil, Walter Penman, 303 West Compton St., Brazil; Amos J. Stamer, 132 1-2 South Meridian St., Brazil; R. Delane Tabor, 821 North Warren St., Brazil; J. Herbert Batchelor, Rural Route No. 1, Brazil; Robert F. Burcholz, Box 22, Rural Route No. 4, Brazil, and John E. Martin, 721 North Depot St., Brazil.

A bronze medal and disablement benefits of \$70 a month were awarded Isaac W. Dixon, 424 Congress Street, Columbia, S. C., an aged

TILGHMAN'S SLAYER TO FACE MURDER CHARGE

WEWOKA, Nov. 5.—Break between state and federal officials as to which government shall have jurisdiction in the Bill Tilghman murder case was seen here Tuesday.

With a state murder charge filed against Wyley Lynn, federal probation officer who shot Tilghman to death Saturday night, Seminole county officials prepared Tuesday for a state preliminary.

County Attorney Walter Billingsley indicated he would pay no attention to the purported federal preliminary hearing set for Thursday before U. S. Commissioner Crutcher at Holdenville.

Mere Complaint
Federal officers have filed a mere complaint against Lynn, according to state officers, charging him with killing Tilghman "while acting in scope of his official duties."

Attorney General Short has declared this charge insufficient and sent three assistants into Seminole county to assist Billingsley in a state prosecution and investigation.

Tilghman, dean of southwestern police officers, had been town marshal of Cromwell since September. Lynn claims that he went to Cromwell Saturday night to raid the Murphy dance hall. One of his guns discharged accidentally in the street. Marshal Tilghman rushed out, took the gun away from him, Lynn said. Then, Lynn seized a smaller gun from an inside pocket and fired three times, he admitted.

Lynn's Story Changed
Lynn claimed at first that Tilghman had fired at him. Later he

modified this story, county authorities claim.

No state charges will be filed against Rose Lutke and Eva Caton, Wewoka rooming house women, and W. L. Thomas, Fort Sill army sergeant, who accompanied Lynn to Cromwell and witnessed the shooting. Each of these may be held under bond as material witnesses, however.

The active pallbearers will be Governor M. E. Trapp, J. B. A. Robertson, W. H. Crume, Okmulgee, G. M. Swanson, Muskogee, U. S. Marshal Alva McDonald, and General Roy Hoffman.

Those accepted as honorary pallbearers were C. F. Colcord, F. B. Burford, Elmer Trueblood, General W. Pentecost, Chris Madson, Ed Overholser, Mayor O. A. Cargill, W. T. Hayes, F. A. Rittenhouse, John Golobie, Tom McMechan, Fred E. Sutton, Frank H. McCann, William Fossett, Police Chief Ray Frazier,

W. E. Snelson, George H. Willis, and Frank Carter.

Tools of Famous Inventor

Undisputed for 150 Years.

LONDON, Nov. 5.—Negotiations are expected to be completed shortly whereby the garret in Healthfield Hall, Handsworth, in which James Watt conducted the experiments which led to the development of the steam engine, will be brought bodily to London to be perpetuated in the South Kensington Museum.

Watt first went to Heathfield Hall in 1768. After his death the room in which he worked was locked and remained unopened for many years, and his tools and benches, even the leather apron in which he worked and which remains in the same spot in which he placed it, have remained undisturbed.

Harvey Entertain

Mr. and Mrs. Harvey, 505 East Twelfth, entertained Monday evening with a musical entertainment. A joyful time was reported by all. Refreshments were served to the following guests:

Richard Campbell, Mr. and Mrs. Luther Kroth, Jewell Morris, E. E. Carroll, W. E. Loman, R. D. Loman, Ray Goodman, Joe Smith, Roy Kelter, Loring Jones, Lewis Kroth, R. D. Pool, Elzie Jones, B. L. Howard, Ethel Driver, Myrtle Lee Hendrix, Coy Simpson, Lorene Broadway, Pearl Daniels, Ruby Daniels, Kathleen Pike, Helen Plummer.

Music at College

The election is over, let's quiet down and go out to the College Thursday evening and listen to a program of music that will soothe the nerves and make us forget the outside world and its turmoil. Herbert Wall, baritone, and Elsworth A. MacLeod, pianist, will render a program that will be pleasing to every listener. Their program will be varied and no doubt but the major portions will be just the music you need at this particular time.

Smartness In Dress Depends On Correct Details, Declares Expert

CHICAGO—Careful attention to little details marks the smart woman nowadays, according to Madame Marge, lecturer and recognized authority on women's clothing.

"The skirts are extremely short for fall and winter," said Madame Marge, "and the woman who wishes to be attractively dressed must not only be sure of her skirt length and the cut of her costume, but choose her shoes and stockings to complement her gown."

"With skirts ten and twelve inches from the floor, what could be more unbecoming than an ill-fitting pair of hose conspicuously showing below a trim tailored frock?"

"After a lapse of years the new full-fashioned silk-and-fibre dollar hose restores to women the opportunity to buy expensive looking stockings at such a reasonable figure that they can afford to have a considerable assortment. These hose are fitted in the knitting, making them conform to the ankles trimly and snugly. They come in all colors, either harmonizing or contrasting with any gown, and are appropriate for morning, afternoon or evening wear, for the pretty sheer and fitting qualities compare favorably with the most expensive hose. They are the completing detail of the costume of the young business woman who must appear smart on a limited income."

Two Colleges Help in Fight on Illiteracy in Kentucky

FRANKFORT, Ky., Nov. 5.—In the mountainous district of Kentucky are two schools, Berea College, the largest and most widely known mountain school of the South, and Witherspoon College, another large institution but the least known among 200 mountain schools.

The students at Berea work their way, training to teach, in the profession of law, farming and business. Their experiences are negligible but their means are limited. President William J. Hutchins points out. The enrollment runs as high as 2,738 students, who come from the neighboring mountains.

The system is one of self-support. The faculty has arranged that the students may work half a day and study half a day. While President Hutchins' son's education cost more than \$1,000 a year at a prominent university, the students here average \$146 annual expenditure. Most of them do not have that much money so they receive faculty loans of \$30 each, then work out the remainder of their expenses.

The dedication of the new home

METHODISTS TO MEET IN McALESTER THURSDAY

MALESTER, Nov. 5.—The seventy-ninth session of the East Oklahoma conference, Methodist Episcopal church, south, will convene at Grand Avenue Methodist church here at 9 Thursday, Bishop John M. Moore, Dallas, presiding.

The opening sermon will be preached Wednesday evening by Dr. Charles G. Seelman, president of Southern Methodist university, Dallas.

The anniversary of the conference board of education will be held Thursday evening, the Rev. Charles L. Brooks, president of the board, presiding. Dr. Paul B. Kern, dean of the theological department of Southern Methodist university, Dallas, will deliver the annual educational address.

Preaching Each Afternoon

There will be preaching services each afternoon during the conference and in the evening of each day one of the conference boards will hold an anniversary session. Sunday there will be a "love feast" at 9; at 11 the bishop will preach and ordain deacons; in the afternoon a memorial session will be held for deceased preachers; and in the evening elders will be ordained and the appointments read.

Not since Oct. 26, 1904, has any session of the conference been held at McAlester. The fifty-ninth session was held at Phillips Memorial church—now Grand avenue—during the pastorate of the Rev. J. H. Ball, who is now presiding elder of the McAlester district. Bishop E. E. Ross was president of that conference.

The history of Southern Methodism in what is now known as Oklahoma began with the division of Methodism in 1844. Previous to that, however, Methodism had been in operation among the Indians. This work began as early as 1832.

was the senatorial winner in Illinois. Dupont, also a Republican, was the victor in Delaware.

All the six seats in the house held by Democrats from Pennsylvania have been re-captured by the Republicans. This constitutes the biggest individual state in the congressional elections up to early today. Three of the six seats the Democrats now have from New Jersey also have been returned to the Republicans.

Only two of the New England states—Massachusetts and Rhode Island—will have Democratic representatives in the next house as compared with four at present. The Democrats lost one seat each in Connecticut and New Hampshire but retained their one in Rhode Island and their three in Massachusetts.

FRANKFORT, Oct. 6.—The fact that Germany in singing the Versailles Treaty acknowledged herself to be solely responsible for the outbreak of the World War carries absolutely no weight as far as the scientific establishment of the facts in the case is concerned, in the opinion of the German Historic Society, which recently held its fourteenth convention here. The signature, declare a resolution, unani-

mously adopted, was obtained "under dress, and is of no significance whatever for determining the scientific truth."

The German historians hold that before the question can be scientifically determined, all official archives of all nations concerned must be made available for thorough and methodical research.

BIBLE THOUGHT FOR TODAY

BETTER IS A DRY MORSEL, AND QUIETNESS THEREWITH, THAN A HOUSE FULL OF SACRIFICES WITH STRIFE.—Proverbs 17:1.

DID YOU EVER STOP TO THINK.

THAT some cities need more business and less politics. Politics never built a city or made better business.

THAT too much politics will always kill a city.

THAT it is time that many cities realized that fact and put politics out of city building.

THAT it takes business to build any city and it takes real hard work to make better business.

THAT when you find a good business city, you will find it a fitting testimonial to the progress and prosperity of its business men.

THAT in such cities you will find its citizens filled with a determination to eschew factional politics and to vote for the men whom they honestly believe to be best capacitated to render efficient public service.

THAT where you find a city well managed you will find that the city officials care more for service than they do for votes.

Cities where the officials act like conscienceless high-jackers are usually on their way to the "bow-wows."

Copyrighted 1924, by E. R. Waite,
Secretary Shawnee Chamber of Commerce.

Looks very much like LaFollette's campaign was more of a ghost scare than the real article. Just where his boasted strength went to is not easy to determine. The country has passed its verdict on LaFollette and henceforth he will not cut the figure in congressional affairs that he formerly has. People don't like to follow leaders who lose and now that they know how LaFollette stands in the estimation of the country, they will be inclined to leave his hearse and jump into the band wagon. There was certainly no great demand or insistent call for a third party this year.

The News still believes that John W. Davis is one of the greatest Americans of his day and that the government would have been in far stronger and more able hands had he been elected than it will be under the management of Calvin Coolidge, but since the majority has pronounced in favor of the latter, he is our president as much as any one else's. The country is entitled to a strong and honest administration and Coolidge now has a chance to make good.

The News kept right up with the procession Tuesday night getting A. P. dispatches every few minutes and getting out an extra early this morning which carried national, state and county returns past the midnight hours. By giving out the returns at the Convention hall the usual crush at the News office was avoided and the people had a chance to sit down and be comfortable while waiting for the bulletins to come in. The News tries to give the public the best service available in all lines.

The election is over but it looks like all of us except the winning candidates will have to keep on at the same old grind as heretofore. No matter how hard one whoops it up for a candidate and no matter what great things said candidate promises will take place when he is elected, it is the same old tale. Somehow the millenium has never dawned after an election.

The Salt River special left Tuesday night on its regular biennial voyage towards the headwaters of the stream. Its accommodations are not particularly palatial, rather cold, in fact, and while no one ever books passage in advance on the boat, it is always filled when sailing time comes. All the baggage the passengers take with them is blasted hopes.

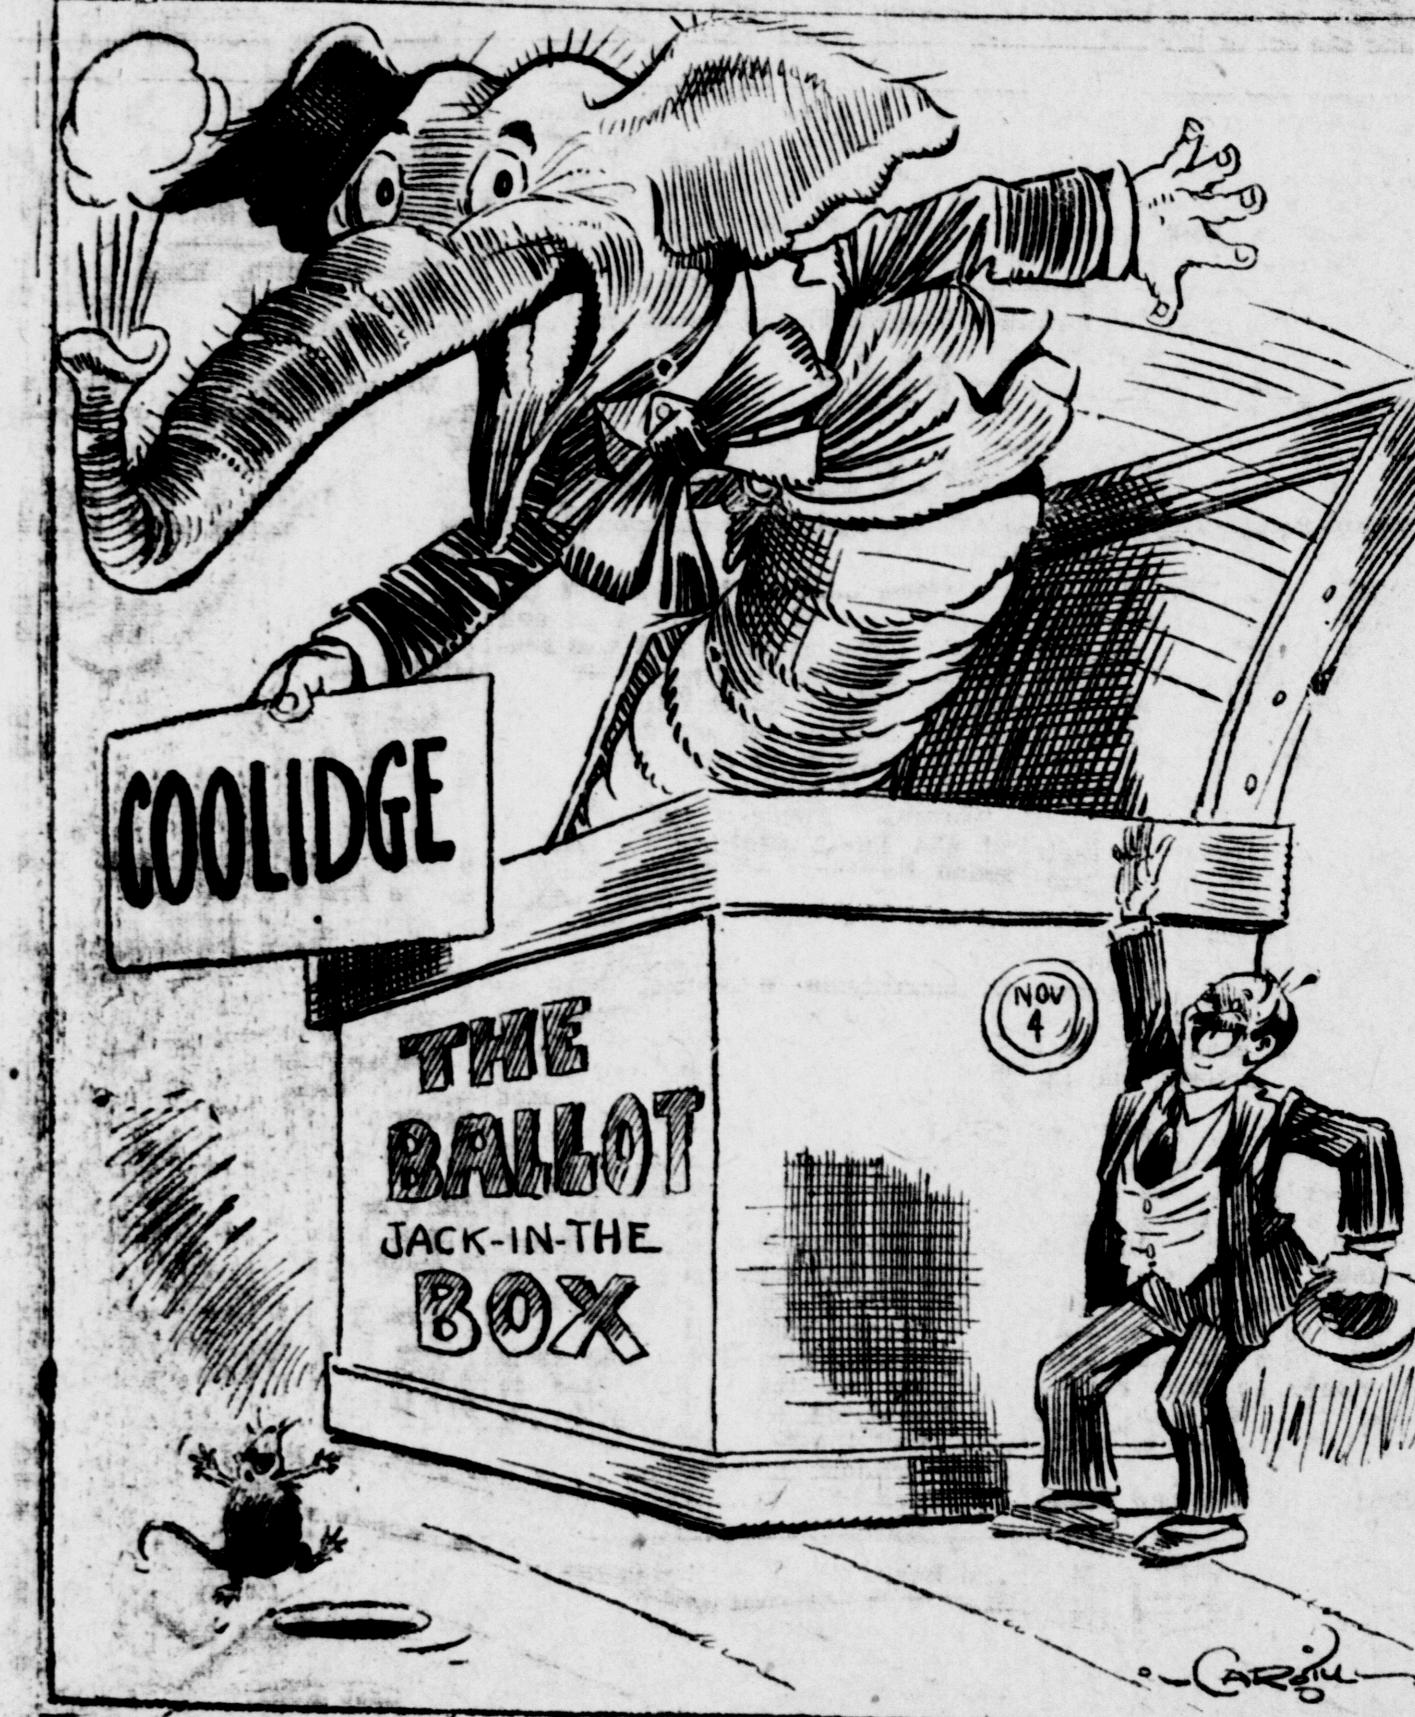

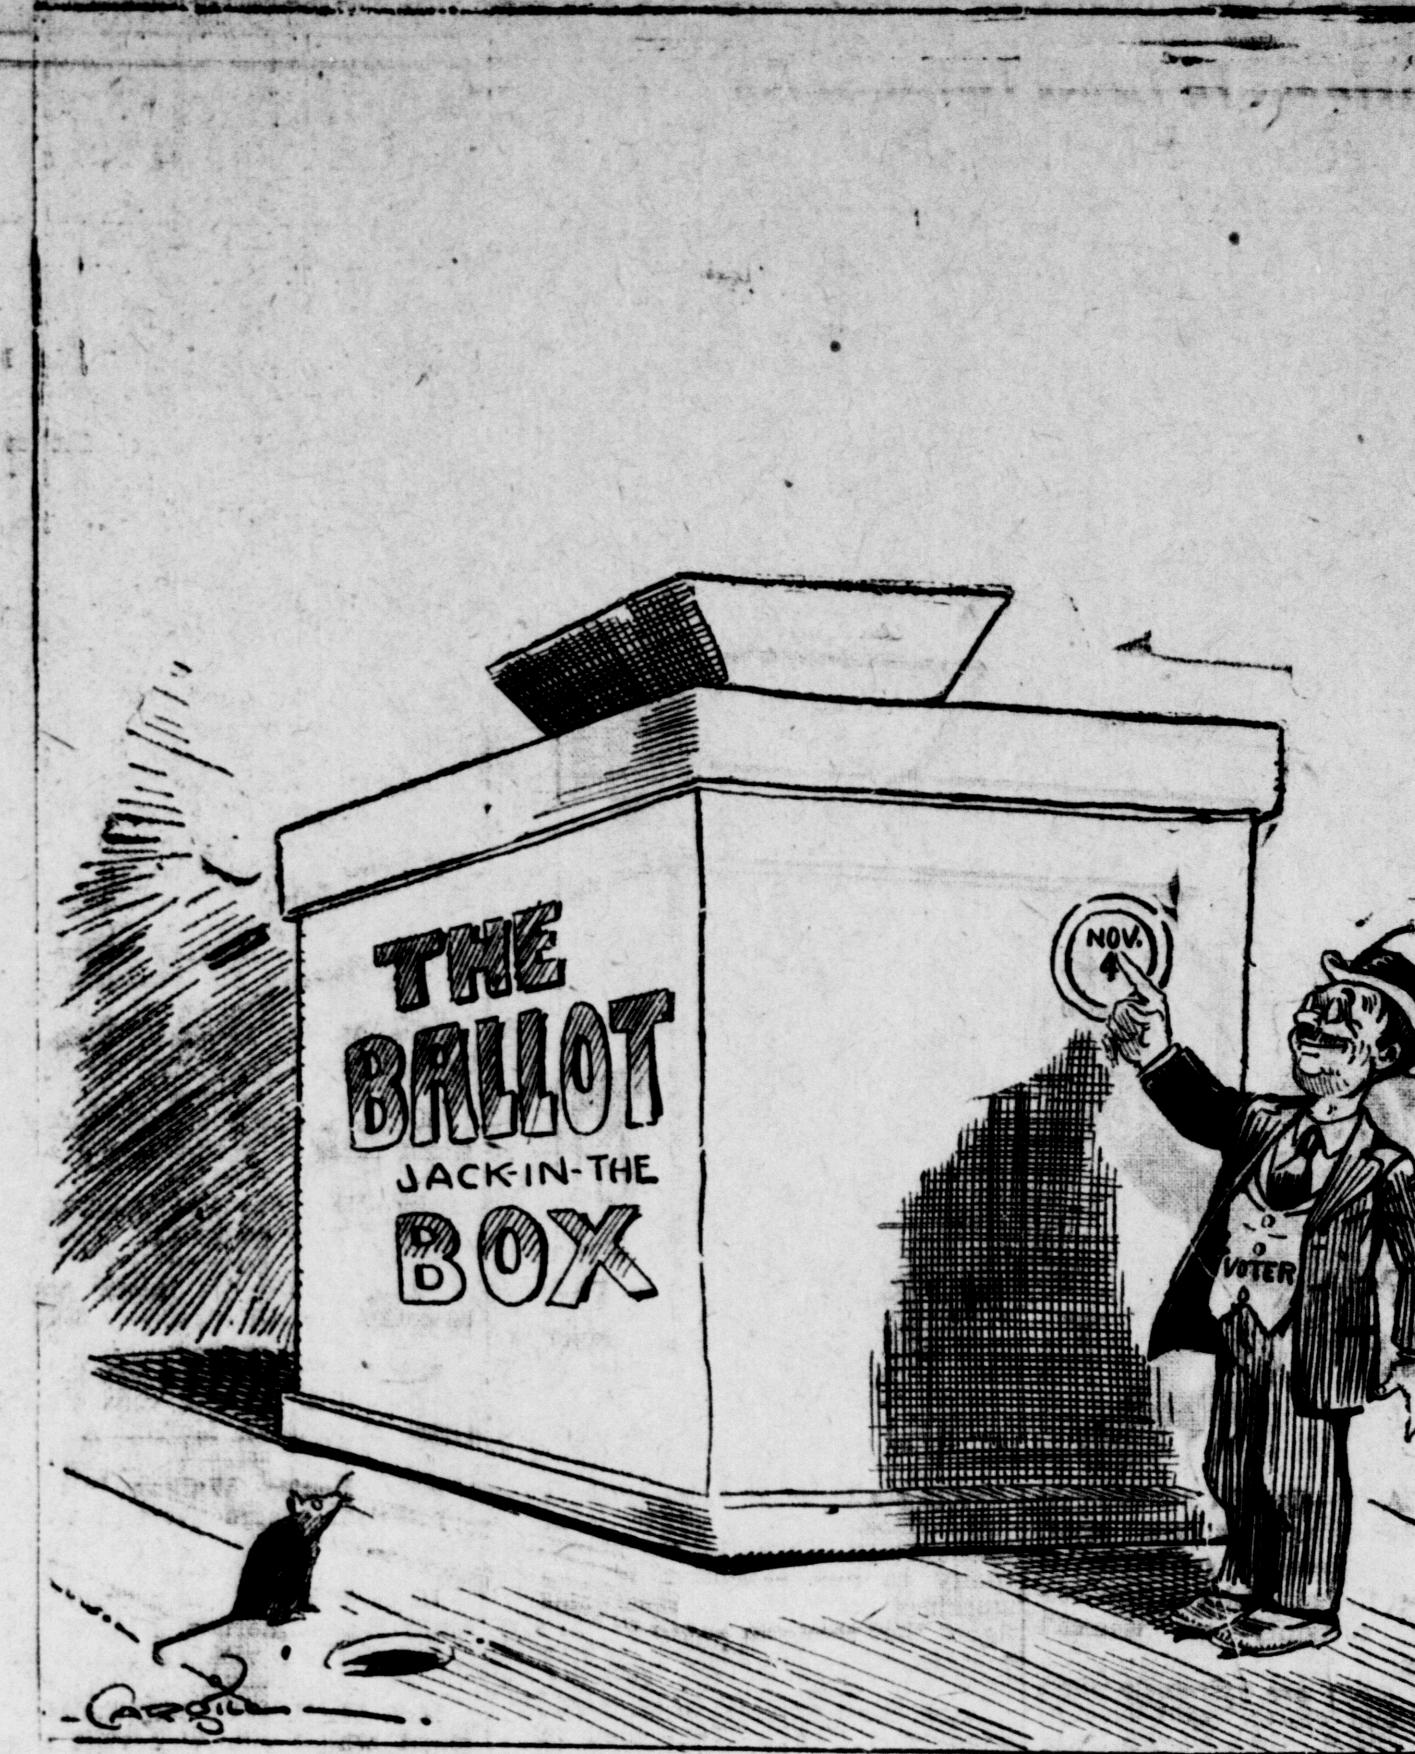

Well, the Democratic party has survived several setbacks in its day and has always come back. The corpse is still a very lively one and will be in evidence when the Republicans have sinned away their days of grace.

The McAlester News-Capital suggests that it might pay the government to administer a shot of the serum that is said to make people tell the truth to some of the millionaires of the country when they render their income tax reports.

If an editor has any doubt about whether his paper is read he has only to let an error, typographical or statement, get through. He never fails to hear from the public then.

A great advantage in the use of the radio is that when one is tired of hearing a spieler he can cut him out something impossible when in contact with him.

At least one thing must be admitted. John W. Davis showed himself a master of economic issues. In a normal time, he would have pushed Coolidge off the course, we believe. This year, however, with the voting public at sea on big Republican landslide of four years ago did not repeat.

No. 1

that she had seldom exercised her right to vote.

Her neighbors declared, however, that she could prepare a sumptuous dinner with her own hands, if she cared to, and that as a chauffeur she was so good her husband had never learned to drive.

Mr. Ferguson was the son of a Methodist preacher and farmer. As a boy he worked on the farm and went to the far west in his teens for governor. Mrs. Ferguson frankly declared that she had no greater desire to hold office, that where he worked at many things, as a bell boy in a hotel, a miner and Jack at all trades. He soon returned and worked as a bridge carpenter on a railroad. Later he studied law and was admitted to the bar. He enjoyed a successful practice, accumulated a small fortune and moved to Temple and founded the Temple State bank.

In 1914 he became a candidate for governor, on his own motion. He was scarcely known outside his home county. But by his vigorous campaign addresses he soon became recognized as potential governor and was later elected.

His first administration ran along harmoniously. In 1916, he ran for re-election and in that campaign the source of his first campaign fund was questioned. All charges were denied. Mr. Ferguson entered into a suit against several individuals and newspapers.

The next difficulty arose later in the year out of his request of President R. T. Vinson of the University of Texas that certain members of the faculty be dismissed.

Vinson called on Ferguson to give his reasons. Ferguson did not reply, but went before the board of regents of the university and read a statement setting forth accusations against certain members of the faculty. The board of regents voted not to dismiss the professors under fire and Ferguson, as governor, began to use the knife freely on the university appropriations.

As a result of the veto by Governor Ferguson of University of Texas appropriations on charges brought against members of the university faculty, and his insistence that they be removed before the university open its doors for the fall term, Speaker F. O. Fuller of the house of representatives in July, 1917, called a special session of the house to consider whether charges against him should be brought against him. Dispute over a committee's report on the location of the west Texas A. & M. college and the number of votes cast for Abilene was brought into the fight, it being charged that the governor would not call the committee to reconvene.

In a speech at Austin, Governor Ferguson threw down the gauntlet to the ex-students association of the university, demanding to know if they "approve or disapprove of the carrying of 'dead men' on the university's pay roll." He attacked President Vinson of the university and also challenged Vinson, Fuller, Lieutenant Governor Hobby and others to get in the governor's race to make the university question an issue.

On July 27, the Travis county grand jury indicted Governor Ferguson on nine charges, seven of which were alleged misapplication of public funds, one for alleged embezzlement and one for alleged

diverting of a special fund.

Calls Special Session.

Governor Ferguson replied by announcing for office for a third term. He called a special session of the legislature by proclamation to meet August 1. He said that he did this to permit the legislature to have an "opportunity to override my veto" of the university appropriations, should they wish to do so.

On the second day of the session, Speaker Fuller preferred charges of impeachment against the governor. A resolution carried two to one in the house to investigate thoroughly the acts of the governor.

In his defense the governor was on the stand a great deal, denying charges brought against him. Questioned as to where he obtained \$156,000 he used in paying his debts to the Temple State bank and the Houston National Exchange bank, he said he had borrowed the money because of his bankrupt condition at the time, from friends whose names he did not want to disclose at that time. The house ruled that he divulge the names of these men, but he declared he would rather lose his office and become bankrupt than to do so.

On August 23, the house voted 32 to 51 to impeach Governor Ferguson on 21 charges and he was suspended from office the following day awaiting action by the senate.

The senate trial followed swiftly and on September 22, 1917, Ferguson was convicted on ten of the 21 charges, a provision being inserted in the senate verdict disqualifying him from holding any state office.

Indictments returned against Ferguson by a Travis county grand

LONG ENGAGEMENT IDEA REVIVED IN BRITAIN

LONDON, Nov. 5.—"Back to the long engagement," seems to have become a sort of slogan among the lovelorn of Britain. It would be hard to say how the change has come about but evidence accumulated that long engagements are again in fashion.

The wartime habit of the hasty marriage—not seldom followed by repentance at leisure—is surely giving way to the protracted and romantic engagements of prim days when Queen Victoria used to spank one of her grandchildren who afterwards became Emperor of Germany. "There is a slump in the sale of engagement rings," confided a court jeweler. "Young men nowadays do not rush into three or four engagements before they marry. This, however, is balanced by the number of costliness of presents exchanged in the courtship. The most fashionable marriages are result of a six to twelve months engagement.

Jury, based on information in the impeachment charges, were later quashed on motion of the district attorney, who said evidence for conviction was insufficient.

There are areas of land suitable for cotton production in British East Africa that are twice as great as the cotton lands of the United States.

STAMP COLLECTORS ASK TO USE U. S. ZEPPELIN

FRIEDRICHSHAFEN. — In her flight across the Atlantic the ZR-3 will carry 200 pounds of mail which has accumulated in the Friederichshafen post office since last July, when the German postal authorities made the first announcement that post cards and letters might be sent to North and South America and Canada by the dirigible route. The mail will be made up chiefly of cards and letters sent at the request of the collectors of postage stamps. In many instances Americans in Germany have sent letters addressed to themselves. One letter has been addressed and stamped with the purpose of reaching San Francisco in record time. It will travel on the ZR-3 to Lakewood, New Jersey, and there be transferred for the United States postal authorities for the transcontinental air service. This letter sent by Alphonse Boutin, chief yeoman in the U. S. Navy, to a friend Otto von Gehrden, a construction engineer in San Francisco, carried German stamps at one end and American postage at the other with a request to the post office department to expedite it. It is estimated that this letter may reach its destination, roughly 7,000 miles, in six or seven days.

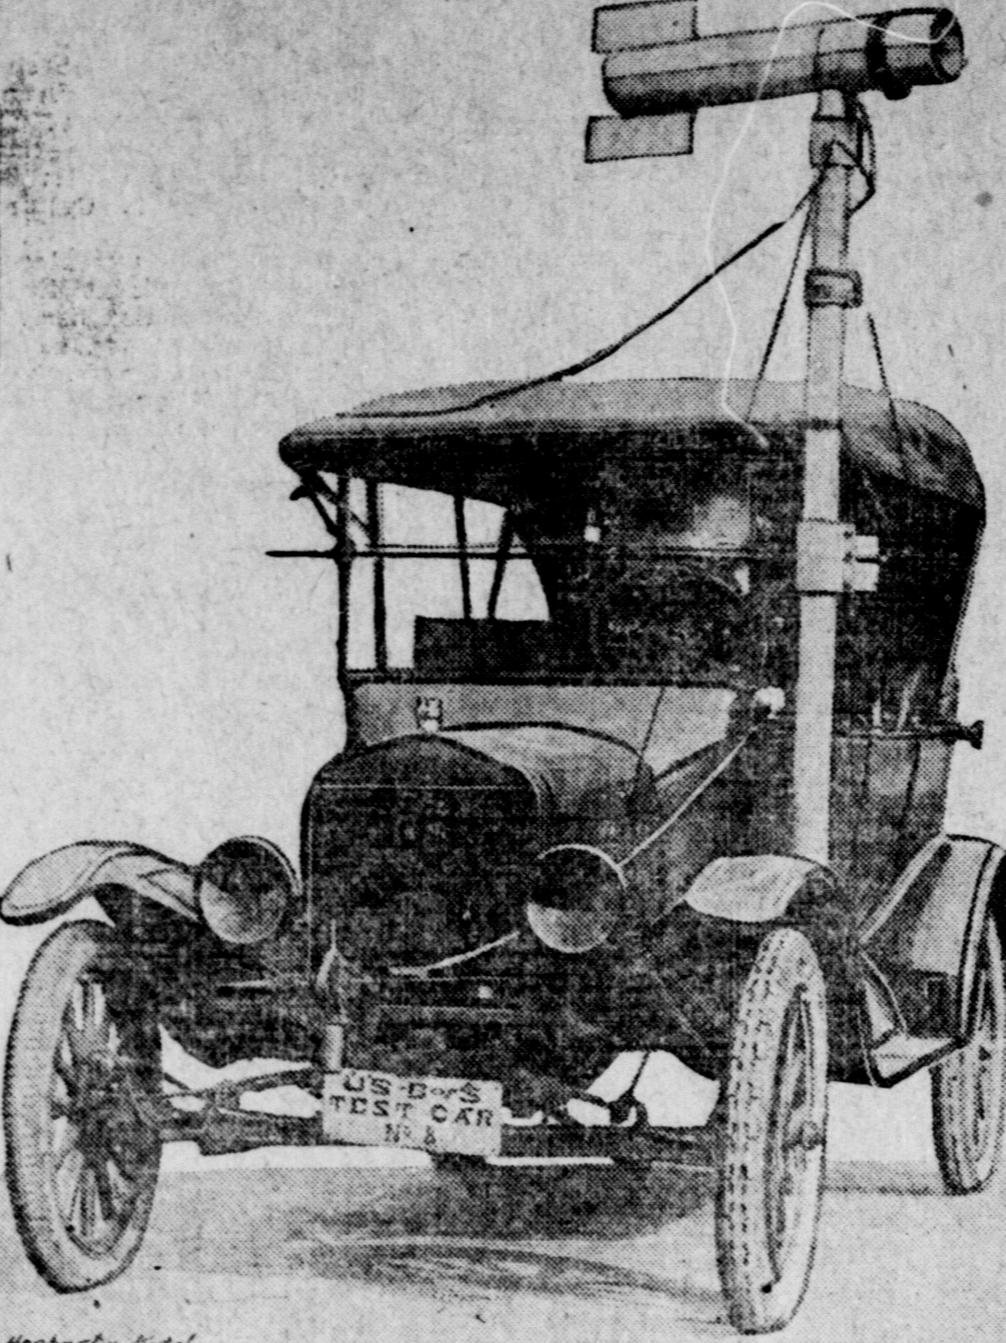

AN Exide Battery always was an economy in the long run. Now it is an economy from the time it is purchased because of its present low price. It gives long service, it is powerful and rugged, it stays right on the job in your car.

Ten requests from the French government for American teachers to act as assistants in French lycees are reported by the Institute of International Education of the American Council on Education, Washington. An attempt is made to assign these assistants to lycees in university towns providing opportunity for them to carry on studies in the universities.

"BRUCE'S CHARIOT" KEEPS TAB ON CAR

C. S. Bruce of the United States bureau of standards operates the government-owned driver, which consists of ninety pieces of apparatus which tell the complete story, for the first time, of what happens to the car and what the car does during a tour. This car has been dubbed "Bruce's chariot." The apparatus constructed tells such things as the number of explosions in each cylinder, as well as the number of revolutions of each wheel, the weight of the air used by the engine, how much work the piston does in sucking in air and gas, and many other things. The stove-pipe apparatus is used to measure wind velocity and to obtain wind protection. The car is being used in tests looking to improving motor efficiency and performance.

WINDSHIELD FOR REAR AUTO SEAT

Heavy Material for Construction Can Be Avoided by Using Celluloid.

Windshields used on rear seats of automobiles are usually constructed of thick plate glass and require a substantial metal frame to hold them in position. This heavy construction can be avoided by making the shield of celluloid and metal rod as shown in the drawing. It is easy to adjust and there will be no danger of being cut by broken glass, should an accident occur.

Framework of Brass.
The framework is made of $\frac{1}{4}$ -inch brass rod, bent to the shape indicated. Iron rod can also be used provided it is painted to prevent rust. Four pieces of $1\frac{1}{2}$ -inch celluloid are cut to fit in-

Loud Speaking Signs With Varied Appeals

Motorists who can read English will have little excuse in being caught in evading speed laws. Towns throughout the country are very active in putting up warning signs, with the aim of better traffic regulations and of improved accident record. Here are several signs with varied appeal, as reported by one tourist:

"This is a good road. It will cost you money to burn it up."

"Slow down. Look before you weep."

"Don't covet your neighbor's side of the road."

"Look out. You may meet a fool around the corner."

"Stop—Look—and Live."

"Don't speed. It is Good morning, Judge."

High Speed Dries Tires and Makes Blowout Easy

One of the most expert tire men in the country recently called the attention of motorcar owners to the manner in which tire wear increases with speed. The faster a tire travels, the more heat it generates internally. Normal speed does not increase the internal heat to a dangerous degree, but excess speed will not only raise the heat above the danger point, but may actually cause further vulcanization to take place. This heat not only dries out the friction gum between the plies of fabric but the very fabric itself, lowering the elasticity of the tire, decreasing its resiliency and weakening the tire so that it will blow out early.

Way to Harden Iron

At times it is desirable to harden small cast iron parts. Here's how: Take a half pint of sulphuric acid, two quarts of common salt, one-half pound of saltpeter, two pounds of alum, a quarter pound of prussiate of potash, quarter pound of cyanide of potash and dissolve in ten gallons of soft water. Heat the iron to a cherry red and dip in the solution. If the parts are wanted hard, repeated heating and dipping will be necessary.

Cleaning Commutator

When the generator commutator becomes dirty it may be cleaned by wrapping a piece of sandpaper around the end of a stick and holding it in contact with the copper surface, the engine being run meanwhile. Fine sandpaper only should be used. Emery cloth should never be employed. —Chicago Tribune.

Clean Generator Brushes

Examine generator brushes about twice a season. The main troubles brushes are subject to are brushes sticking in holders, holders overheating, brushes fitted poorly to commutator, weak holder springs or brushes grounded by dirt, oil or carbon particles.

Care of Steering Wheel

A slightly tapering bolt with a number of steel washers under the head, so that, by removing one or more, the bolt may be tightened in its bearings, makes an admirable steering gear connection. Incidentally, too much attention cannot be given to obtaining dependable steering gears.

REDUCED FARES FOR EDUCATION ASSOCIATION

The Southwestern Passenger Association has announced a round trip for one and one-half fare to the East Central Oklahoma Education Association which meets at Ada, October 30th to November 1st.

This fare is granted under the identification certificate plan, and members of the Association desiring the reduced fare should write the Secretary, Mr. E. C. Wilson, at Ada, for the certificate.

Tickets will be sold from October 27 to November 1, inclusive with November 6th as a final return limit.

Celluloid Windshield for Rear Seat Eliminates Danger of Being Cut by Broken Glass.

side of the frame. These are sewed or glued to strips of heavy rubberized or leatherized fabric, which is folded over the frame and fastened by means of snaps. A good adhesive for gluing celluloid to cloth or leather is made by mixing two parts of shellac, three parts of spirits of camphor and four parts of alcohol. The fittings permanently attached to the inside of the body to hold the windshield, are made of $\frac{1}{4}$ -inch sheet brass. The frame and the shield itself are readily removable. —G. A. Luers, Washington, D. C. in Popular Mechanics Magazine.

Correct Proportion of Gasoline Mixture

The correct proportion of gasoline for a perfect fuel mixture is .07 of a pound of gas to a pound of dry air.

It is possible to operate on a mixture containing as much as .12 of a pound of gas to the pound of dry air, which is nearly twice as much gasoline as is needed.

This wide range of mixture strength constitutes the greatest factor in wastage of gasoline. The majority of car owners run more nearly at the maximum strength than at the minimum, which would give them better results. They are using nearly twice as much fuel as there is any need for. Think it over.

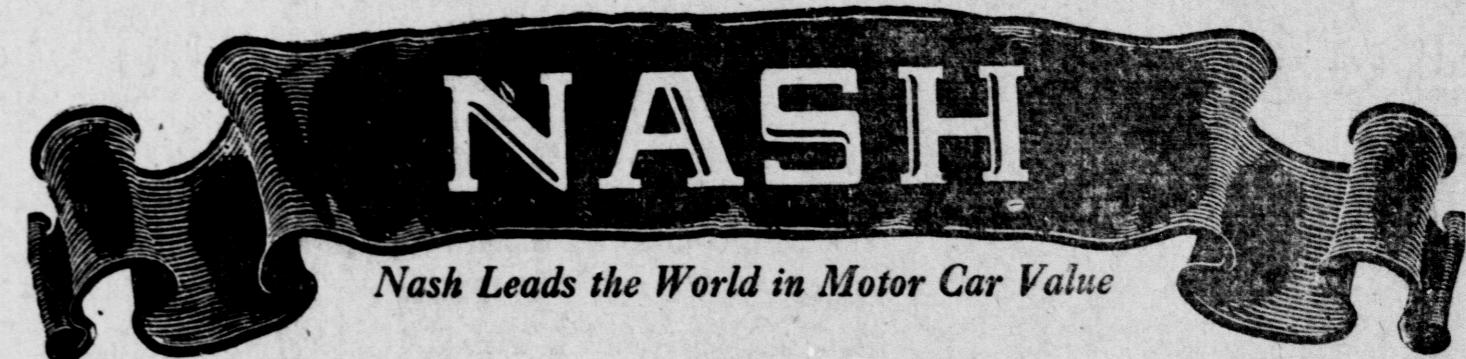

Spend an hour in an Oakland Six and you will understand why this car is winning and holding the good will of all who buy it.

Standard equipment includes four-wheel brakes, disc steel wheels, balloon tires, permanent top, Fisher Bodies, one-piece ventilating windshield on closed types, Duo finish, centralized controls, indirectly-lighted unit instrument panel, automatic spark control. Glass enclosures for open cars at small added cost.

Nash Leads the World in Motor Car Value

A National Tribute to Nash

7,800 Cars Oversold
Despite Record-breaking Output

Though Nash production is at the highest level ever attained

—still the demand from every section of the country for these new Advanced Six and Special Six models has swept sales to a point so far beyond the best previous mark that unfilled orders total 7,800 cars.

Nothing that we might say could add the weight of a straw to this irrefutable evidence that men and women everywhere do see clearly in these new cars unparalleled excellence and value.

Happily, with increased output unreasonable delay is eliminated for those who act with promptitude in placing orders.

And deliveries will be made on the rotation basis which is fair to all.

In the meantime—October 5th to 12th is national Nash Oversold Week in honor of the extraordinary success of these new models and we are staging a special exhibition.

Notice of Sale of Oil and Gas Lease. IN THE COUNTY COURT PROBATE 2432 State of Oklahoma, County of Pontotoc, ss.

Notice is hereby given, in pursuance of an order of the County Court of Pontotoc County, State of Oklahoma, made and entered on the 5th day of November, 1924, the undersigned guardian will offer for sale and sell at public auction to the highest and best bidder an oil and gas mining lease on Wednesday the 12th day of November, 1924, at 2:00 o'clock p. m., the following described lands situated in Pontotoc County, State of Oklahoma, to-wit:

An undivided two-eighteenths (2-18) interest in the NE 1-4; and E 1-2 of SE 1-4 of NW 1-4; and N 1-2 of NE 1-4 of SE 1-4; and SW 1-4 of NE 1-4 of SE 1-4; and NE 1-4 of SW 1-4; and S 1-2 of NE 1-4 of SW 1-4; and N 1-2 of SE 1-4 or Section Twenty-Three (23); and an undivided two-ninths (2-9) interest in the SE 1-4 of Section Thirteen (13) all in Township Four (4) North, Range Seven (7) West of the Indian Base and Meridian, containing all told, 320 acres.

Said oil and gas lease will be sold on the following terms and conditions, to-wit: For a cash bonus for minor proportionate part at the rate of not less than \$2.00 per acre and minor's proportionate part or one-eighth of the oil and gas produced and saved from said oil wells, or its equivalent in money at the market price thereof.

The story deals with twins who have been separated in childhood and have grown up without knowing of each other's existence. One, heiress to millions, has lived in a world of luxury and refinement. The other has known no other home than the underworld, no other companion than her Chinatown friends.

To THE VOTERS OF FONTOTOC COUNTY

TO THE VOTERS OF

FRANK McGuire, one of the premier clothing men in Oklahoma, will be connected with the Model Clothiers here according to the announcement of Harry Schenckberg, manager upon McGuire's arrival here today.

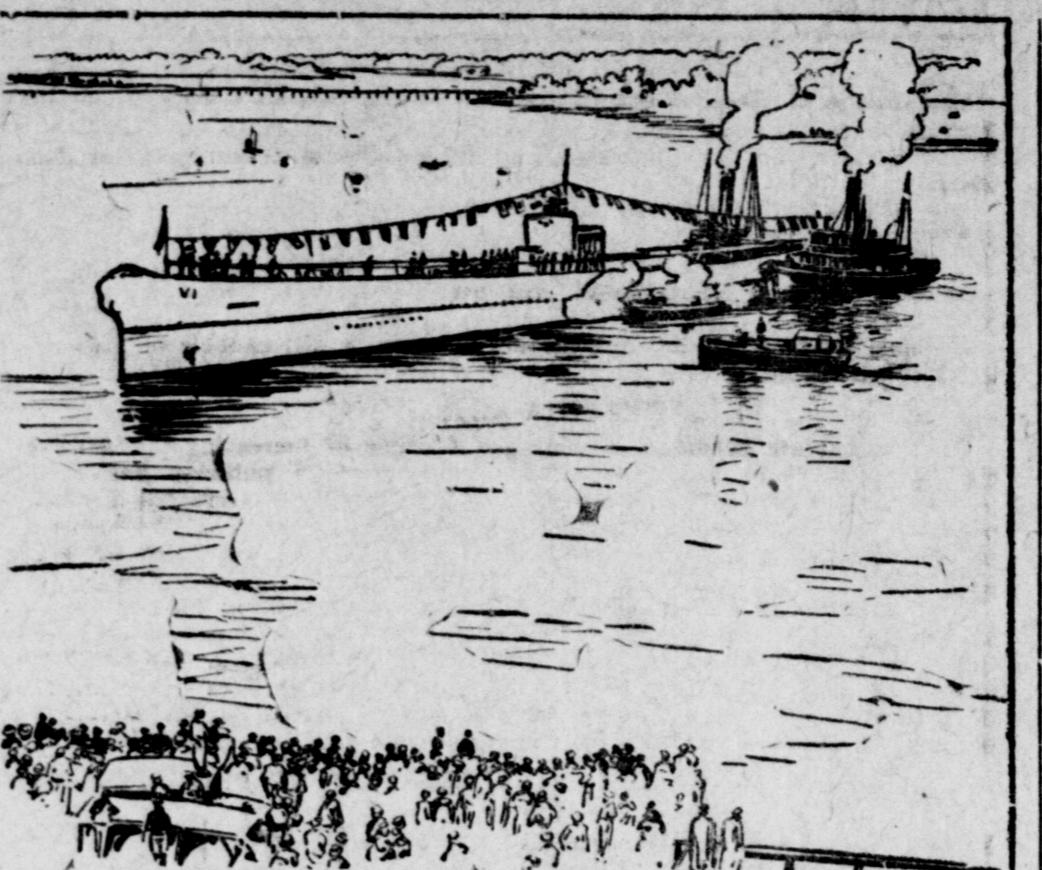

McGuire, who was formerly located at Okmulgee, came here from Rendberg's in Tulsa. He has been actively engaged in the clothing business for a number of years and is considered one of the pioneers in the industry in the state.

McGuire is a Shriner of the Muskeg Shrine, belongs to the consti-

tuency at McAlester and a member of the First Methodist church.

What the World Is Doing

As Seen by Popular Mechanics Magazine

Shortly after Launching: the Giant Submarine "V-1" with Its Gay Pennants Is Welcomed to the Sea and Preparations Are Made to Complete It for Voyage across the Atlantic

Giant Sub Able to Cross Atlantic with Crew of Eighty-Seven

Over Thousand Accidents an Hour Cause Heavy Loss in U. S.

The fighting efficiency of Uncle Sam's navy will be greatly increased, officials believe, by the "V-1," the giant submarine, nearly twice as large as any previously built here. It is said to be capable of sailing as fast and as far as the battle fleet in any kind of weather and will not need the services of a "mother-ship." The huge boat, the first of a fleet of nine similar fighters to be built, can cross the Atlantic and return without replenishing its supplies of fuel. With a displacement of 2,164 tons, it develops a speed of twenty-one knots at the surface and nine knots an hour submerged. It is 341 feet six inches long, has a maximum breadth of twenty-seven feet eight and five-eighths inches and will carry a crew of seven officers and eighty men.

A good filler for cracks in stoves and furnaces is made by mixing equal parts of salt and wood ashes into a paste.

Pioneer Clothier To Be Located With Model Firm Here

Soon fate begins to complicate the situation. The heiress visits Chinatown on a slumming party, and it is then that the discovery is made by her sister's pals that there is a remarkable resemblance between the two. A plan is formed for one girl to take the place of her wealthy double, and it is very conveniently arranged when the heiress is called away from the city. The story there after is the revelation of a very clever plot which terminates in the sisters' happy reunion.

The double characterization is portrayed by Mario Prevost. The rest of the cast includes a rare combination of talented players, including John Roche, Rockcliffe Fellowes, Raymond Hatton and Cissy Fitzgerald.

McGuire is a Shriner of the Muskeg Shrine, belongs to the consti-

tuency at McAlester and a member of the First Methodist church.

"CORNERED"

"Cornered," the photoplay which is to be presented at the Meswain Theatre today is an intensely dramatic story based on the subtle intricacies of fate. It gives us an instant of pride, that the sting of defeat can find no place in my heart or mind.

To Mr. Strickland I express my congratulations and ask only to be counted as one of the loyal citizens of Pontotoc county, who will ever be ready to assist you in what ever manner I may be able in any program for the betterment of Pontotoc county and her institutions.

JOHN W. BEARD.

"CORNERED"

I desire to express my appreciation and my thanks to those men and women who so loyally supported me in my race for the legislature and I assure you that the vote you voluntarily gave me fills me with that degree of pride, that the sting of defeat can find no place in my heart or mind.

To Mr. Strickland I express my congratulations and ask only to be counted as one of the loyal citizens of Pontotoc county, who will ever be ready to assist you in what ever manner I may be able in any program for the betterment of Pontotoc county and her institutions.

JOHN W. BEARD.

"LITTLE MISS HOLLYWOOD" and PATHE NEWS

Admission 10c and 35c

A state-wide celebration and general "joy party" is the plan of the 300 Legion posts in Oklahoma for the observance of Armistice Day.

But with few exceptions special programs have been arranged by the posts for November 11 for their home towns, while the remaining posts have planned to join with their neighboring buddies in county and district celebrations.

Especially prominent will be the Northeastern Oklahoma celebration at Chelsea when thousands of service men and their friends, carnivals, free barbecue, football games, dances and patriotic speeches.

Oklahoma City veterans have challenged the entire state to produce more noise than will be heard in the capital city from 11 o'clock, the Armistice hour until midnight. A street carnival with public dancing, artillery displays, noise, parades and more noise, is the program of these veterans, according to the post officers and committees in charge.

Other celebrations include an all-day joy party at Okmulgee with football games parades and speeches as features; a county-wide celebration at Pauls Valley; a carnival dance at El Reno; a "Parisian Carnival" at Drumright; a patriotic celebration at Marlow; a "Legion Night" at Muskogee and a county-wide veterans celebration at Walters when service men of Cotton county will gather for a day of frolic and fun.

"Make Armistice Day a Day of Joy" is the motto of the American Legion throughout the nation. According to the national officers of the veterans' organization there will be but few posts of the 11,000 in the United States and in other countries of the world, where the close of the World war will not be fittingly celebrated by Legionnaires and their friends.

On the Legion's calendar of celebration there are two days in which all loyal veterans are expected to take part; Memorial Day, May 30th, when every Legionnaire must pay homage and respect to the heroes of all American wars, and Armistice Day, a day of joy, when the close of the World War is celebrated.

While no definite program of entertainment for James A. Drain, national commander of the American Legion, during his visit to Oklahoma, Nov. 24 and 25, has yet been made, tentative plans by Muskogee veterans include first a visit to the Veterans Hospital "Trench No. 90" at the Soldiers Memorial hospital when the commander will personally meet all hospital buddies and later a banquet for Legionnaires followed by a public reception.

Commander Drain will leave Muskogee at 9:30 o'clock Tuesday morning, Nov. 25, making a short stop at Tulsa from 11:30 to 12:45. Efforts are being made by Tulsa veterans and the department officers to obtain a longer visit to the Oil City by the Legion Commander. Drain, according to his present plans is scheduled to be in Independence, Kan., Tuesday afternoon for an official inspection of the Legion's Orphans' billet, being constructed near Independence.

Hundreds of Legionnaires throughout Oklahoma have planned to greet the commander at either Muskogee or Tulsa.

Plans are now underway to obtain an official visit by General Drain to the Oklahoma Department during January or February, 1925, at the time of the annual meeting of post commanders, adjutants and service officers. A number of Legion centers of Oklahoma will be visited by the Commander at that time, according to present plans.

Since the passage of the World War veterans' act of June 7, last, a total of 841 ex-service men, formerly unable to establish the connection of their disabilities with the service in the World war, have been admitted to veterans bureau hospitals, according to the announcement of officials of the American Legion, which organization was largely responsible for the enactment of the Veterans' act. Under the provisions of the act, tubercular and neuro-psychiatric diseases arising before the first of January, 1925, are automatically considered by legal presumption as having originated in the service.

A large number of Oklahoma veterans have been benefitted by the bill, and are now being treated in government hospitals.

WALTER P. CHRYSLER'S TRAFFIC TALKS

HAZARDS IN HANDLING GASOLINE

The Bureau of Mines of the Department of the Interior has published an instructive and valuable booklet entitled, "Hazards in Handling Gasoline," which can be had from the Government Printing Office at Washington for five cents.

The booklet covers the relation of properties of gasoline and of gasoline vapor to inflammability, precautions in handling gasoline, general asphyxiation by exhaust gases, gasoline fires caused by filtering gasoline through chamois skin, extinguishing liquid fires, use of foam or a frothy mixture to put out fires, etc.

No open lights, flame, nor any moving machine or belt capable of producing a spark should be allowed in a room where gasoline is being used.

PHILADELPHIA SETS EXAMPLE

Cities which are becoming discouraged because of increasing traffic congestion should take a look at Philadelphia, where a pathway has been plowed through a mass of masonry. The Quaker City has created a great parkway that connects her outermost sections with the heart of the municipality, demolishing 2,000 structures that stood across the path of her progress.

Not content with merely creating this parkway beginning 150 feet wide at the City Hall, then gradually expanding to 600 feet and extending more than a mile, Philadelphia has made provision for protecting it. No building may be erected within 200 feet of this parkway which does not conform to its character, no letter legible from it may be placed on any structure without the approval of the Park Commission, no roof sign may be erected.

CARBON MONOXIDE

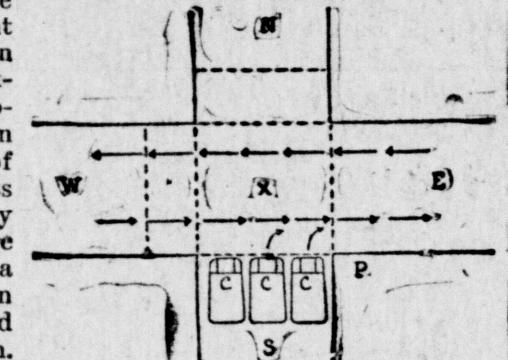

In a booklet published by the Bureau of Mines of the Department of the Interior entitled, "Vitiation of Garage Air by Automobile Exhaust Gases" it is stressed that automobile engines frequently run in garages for considerable periods of time, and the exhaust gases unless removed by proper ventilation may make the atmosphere of the garage unsafe. Running an engine in a garage is particularly hazardous in winter when the weather is too cold for keeping doors and windows open.

In tests made by the authors, garage air was rendered poisonous after an automobile engine had been running 15 minutes.

An automobile engine should not be run in a small garage unless the doors and windows are wide open.

Copies of this booklet may be obtained from the Government Printing Office in Washington for five cents.

IRRITATING TO PEDESTRIANS

After motor cars have traveled East and West and the signal is given for cars to move North and South, pedestrians at P should be allowed to cross the street before cars C are permitted to turn to travel East. Permitting cars to turn before pedestrians can cross is irritating and pedestrians have a just complaint.

PARENTS DAY TO BE OBSERVED BY DE MOLAYS

(By the Associated Press)

KANSAS CITY, Nov. 5—DeMolays throughout the world are arranging programs for the proper observance of Parents' Day, Sunday, November 16. This day is an annual even set aside by the Grand Council of the Order, which has headquarters in this city. In observing it DeMolays show an appreciation of what their parents have done by gifts or the performance of worthy acts.

Special meetings are held in chapter rooms, churches or other designated places. Parents are invited. Talks are made by the young members, pastors of churches and other adult speakers. These talks stress the benefits of respect, admiration and love for parents and the effect these attitudes are bound to have on future citizens.

Besides Parent's Day, there are four other annual observances obligatory on members of the Order of DeMolay; these are—DeMolay Day of Comfort, January 3; Devotional Day, the Sunday nearest March 18, Patriots' Day May 1 and Educational Day, which is set for the second regular meetings of chapters in September.

American lawyers visiting Brasenose college, Oxford, recently, paid a small debt incurred by George Washington's great-great grandfather in 1633.

"THREE WEEKS" COMING ONCE IN EVERY LIFE

"In the life of every man and woman comes a 'Three Weeks'."

That is the claim of Elinor Glyn, authoress and expert on love, whose most famous novel, "Three Weeks" was filmed for the Goldwyn studios by Alan Crosland, and comes to the American theatre today and Thursday.

"Once in every human being's life comes a period of supreme happiness brought about by love. Every woman, for a time, is The Lady, and every man is Paul."

"It may last for months—it may last only a few days. But in that time, every person reaches his highest mental and moral point. 'One does not know at the time that he is experiencing his 'Three Weeks'."

It was with this fact in mind that Mrs. Glyn wrote "Three Weeks," in order to idealize love and depict the "three weeks" of every man and woman.

It is also because of this fact that "Three Weeks" has become the most widely read novel written in the last fifteen years, Mrs. Glyn believes.

Worst Coughs Yield Quickly to Good Old Pine Tar and Honey

One of the best cough medicines that was ever invented according to specialists is good old pine tar and honey. It often stops a bad cough in 24 hours and another advantage of that is it can be given to young children alike as it contains no narcotics or opiates. Doctors say the pine tar quickly loosens and removes the phlegm and congestion which are the *direct cause* of the cough, also healing sores, while the honey both soothes irritation and gives a pleasant taste.

The kind that has been used in thousands of families for many years for coughs, rheumatism, asthma, spasmodic cough, etc., is Dr. Bell's Pine-Tar Honey, which was the original compound. It has many imitators, but still remains the best. It is compounded of just the right proportion of pine tar, honey, and other healing ingredients which the best doctors have found to be the best, and the original Dr. Bell's Pine-Tar Honey and no other. Only 30c at any good druggists.
